

IHS Markit®

Assets

Global Chemical Asset Data with
Capacity Forecast and Live Updates

Assets provides easy access to an unrivaled depth of data on over 500 products, their global capacity and history, process technology, producers and production locations

How will Assets help you?

Validate Your Strategic Capacity Decisions

- Real-time nameplate capacity time series
- See existing and planned capacity - where planned capacity is either under construction or announced for completion over the next five years
- Access via your data browser, the IHS Markit Connect platform or by downloading the data to Excel. With the Excel refreshable option, you can save your analysis and enjoy automatically refreshed content
