

Petrodata ConstructionVesselBase

Unlock commercial prospects worldwide with real-time data on offshore construction vessels.

PRODUCT FEATURES

ConstructionVesselBase is designed to enable straightforward access to detailed information on:

- Vessel availability and work schedules
- Current location
- Past and upcoming commitments
- Technical specifications
- Day rates
- Utilization rates
- Market requirements
- New contract awards
- Vessel sales
- Newbuilds

ConstructionVesselBase is an online database that contains a robust collection of constantly updated commercial and technical data on the global offshore construction fleet. It tracks:

- Crane vessels
- Pipelay vessels
- Diving and ROV support vessels
- Well intervention vessels
- Multiservice vessels
- Accommodation vessels

Accurate and impartial data

IHS Markit strives to provide the most accurate and complete information to help clients make the right decisions and identify new business opportunities and threats in the offshore construction market. Our global team of analysts maintains constant direct dialogue with vessel owners, operators, contractors, fabrication yards and other industry players to gather and verify data on the offshore construction fleet worldwide.

Timely delivery

Unlike other products on the market, ConstructionVesselBase is a live database updated throughout each business day. New information becomes available to clients immediately for viewing, manipulation and download.

View the 'big picture'

Built-in analytical tools and the ability to customize and download all searches allow the user to easily assess vessel activity globally or by region, evaluate market trends, analyze the existing portfolio and performance of clients and competitors, and much more.
