

Petrodata MarineBase

Are you looking for impartial and accurate information on offshore supply vessel day rates, recent contract awards, requirements and vessel availability?

PRODUCT FEATURES:

MarineBase gives you user-friendly access to detailed information on:

- Current, future and historical supply vessel charter contracts
- Spot fixtures
- Vessel work schedules and yard visits
- Vessel availability
- Day rates
- Technical specifications
- Utilization rates
- Newbuild orders
- Inter-regional vessel moves
- Vessel sales and attrition
- Market news

MarineBase is an online service providing valuable data, market intelligence and analysis about the global offshore supply vessel fleet. It tracks over 3,500 vessels, including:

- Anchor Handling Tugs (AHTs)
- Anchor Handling Tug Supply (AHTS) vessels
- Platform Supply Vessels (PSVs)

Exclusive data

We do not rely on press releases. Our supply vessel market experts are based in the UK, UAE, Singapore and Houston. They maintain constant direct dialogue with vessel owners, operators, port authorities and other industry sources to gather and verify information on the global supply vessel fleet.

Analyze the market

Built-in analytical tools and the ability to customize and download all searches allow the user to easily assess supply vessel activity globally or by region, evaluate market and supply/demand trends, analyze the vessel assets and performance of clients and competitors, and much more.

Daily updates

MarineBase is a live database updated throughout each business day. New information becomes available to clients almost immediately for viewing, manipulation and download.

Access our expertise

In IHS Markit, we offer you more than data. Our analysts are recognized market experts that present at marine conferences, prepare in-depth monthly and quarterly reports and provide market commentary to the press and industry. As a client, you will gain access to our analysts to further your understanding of individual projects or have discussions on regional or global trends in the supply vessel market.
