

Door Automation Equipment – 2017

Anna Sliwon, Research Analyst II, Security and Building Technologies – October 2017

ACTUALS AND FORECAST

Frequency, Time Period

- 5-year annual forecast (2017 - 2021)
- Base year (2016)
- Top-level historical analysis (2014-2015)

Measures

- Revenues
- Units
- Average selling price

Market share analysis

- Total Market
- By Region (Americas, EMEA, Asia)
- By Product Type

PRODUCTS COVERED

- Single Operators
- Complete Door Systems
- Single Doors
- Service & Maintenance

REGIONS (BY PRODUCT)

- North America
- Latin America
- Western Europe
- Eastern Europe, Middle East and Africa
- Asia

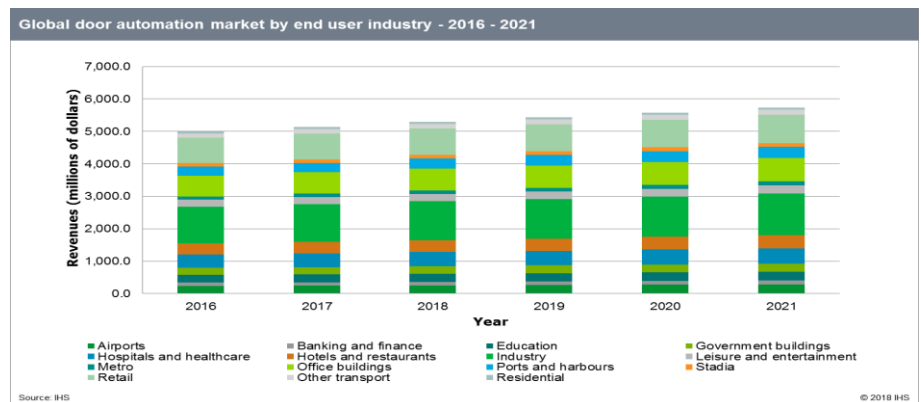

VERTICAL MARKETS

- Airports
- Banking and finance
- Education
- Government buildings
- Hospitals and healthcare
- Hotels & Restaurants
- Industry
- Leisure and entertainment
- Metro (includes all rail)
- Office buildings
- Other transportation
- Retail
- Stadia

This report is part of IHS Markit’s comprehensive coverage of the global entrance control equipment market, including dedicated studies on pedestrian entrance control, door automation and vehicle entrance control.

This is the sixth edition of the report titled *Market for Door Automation Equipment – 2017*. This document outlines the scope for the 2017 edition of this report on the door automation market. The report aims to provide both product manufacturers and system integrators with an in-depth understanding of market sizes, growth forecasts, market trends, and the competitive landscape of this market. Detailed discussion supports the market data and forecast information across three hardware types, 13 end-user industries and five geographic regions. This report will build upon the previous edition by exploring the development of global door automation market trends.

Figure 1 – Global door automation market by end user industry

Key Issues Addressed

- Who are the leading suppliers for each product type in each region?
- Which companies have lost or gained market share?
- Which vertical markets offer the most growth potential and why?
- What role is the trend to “green” technologies playing in the door automation market?
- What are the growth opportunities in each product market and why?

LEAD ANALYST

Anna is a Research Analyst with the Security and Building Technologies group. She is the lead analyst for intrusion research, but her research area coverage also includes ANPR and Detection Sensors, Access Control as a Service, and Door Automation equipment. She has a background in security and defence studies, and has previously worked in a variety of research and analytical roles across the security and WMD non-proliferation fields. Before joining IHS in September 2016, she was working at British Pugwash as a Consultant on the Disarmament Institute project where she led on implementation and design. She also has an MA in Intelligence and International Security from Kings College London and a BA in International Relations and Security Studies from the University of Bradford.

Learn More about IHS Markit Security & Building Technologies

IHS is the world's leading provider of market intelligence to the security industry, with an impressive customer base that includes ten of the largest suppliers of electronic physical security products. We provide complete coverage of the electronic security market, with dedicated reports on a variety of markets including: access controls, intruder alarms, fire detection, entrance control, and explosives, weapons & contraband detection equipment.

The level of detail is unmatched. Our reports can have as many as 200 data tables that analyze the market by product type, industry sector, country and sales channel. With analysts based in Europe, the US and Asia, we are also able to provide global coverage with local market insight.

Our range of products and services includes detailed annual market reports, quarterly market trackers and customer surveys. As well as the off-shelf studies, we also offer custom research and strategy consultancy services, and have successfully completed projects for some of the world's largest security firms.

Table of Contents

Executive Summary

Chapter 1: Introduction, scope, methodology

- 1.0 Introduction
- 1.1 Scope
 - 1.1.1. Geographic regions
 - Americas
 - EMEA
 - Asia
 - 1.1.2 Product Definitions
 - Airports
 - Banking and finance
 - Education
 - Government buildings
 - Hospitals and healthcare
 - Hotels and restaurants
 - Industry
 - Leisure and entertainment
 - Metro
 - Office buildings
 - Other transportation
 - Ports and harbours
 - Stadia
 - Retail
 - Residential
 - 1.2 Methodology
 - 1.2.1 Base year and forecast methodology
 - Base-year data analysis
 - Forecasting method
 - 1.2.2 Data collection methods and sources
 - 1.3 Report content
 - 1.4 Exchange rates

Chapter 2: The market for Door Automation Products

- 2.0 Introduction
- 2.1 Factors affecting growth
 - 2.1.1 Economic outlook
 - 2.1.2 Currency effects
 - Historical 2014 and 2015 currency effects
 - 2016 currency effects
 - 2.1.3 Construction
 - Infrastructure
 - Non-residential structures
 - 2.1.4 Regulations
- 2.2 The market for door automation products
 - Revision to historical data
 - Service and maintenance
 - Door sensors
 - Swing door operators
 - Industrial doors
 - Revolving doors
- 2.3 The market for door automation by end-user industry
- 2.4 The market for door automation products by geographic region
 - 2.4.1 The Americas
 - North America
 - Latin America
 - 2.4.2 EMEA
 - Western Europe
 - Eastern Europe
 - Middle East and Africa
 - 2.4.3 Asia

Chapter 3: Competitive environment

- 3.0 Introduction
- 3.1 Mergers and acquisitions
- 3.2 Supplier market shares
 - 3.2.1 Automatic door operators
 - 3.2.2 Automatic door complete solutions
 - 3.2.3 Total automatic door solutions
 - 3.2.4 Automatic pedestrian door product sales
 - 3.2.5 Automatic industrial door product sales

Chapter 4: Supplementary trend information

- Economic outlook – GDP
- Regulations
- Green Certification and standards organizations
