

TECHNOLOGY, MEDIA & TELECOM INTELLIGENCE SERVICE

# Data Center Rack Systems

Complete coverage of the rack power distribution unit (PDU) and IT rack enclosure markets including the technology and trends relevant to the wider data center industry

Real time access to a continuous flow of research across geographies, topics and application areas:

## FEATURED TOPICS

- Product customization
- Design trends
- Pre-integration
- Energy efficiency
- Open infrastructure designs
- Alternative types of power distribution

### Analyst Insights

Frequent analyst commentary on product launches, market news and analysis.

### Market Trackers

Historical and forecasted market data along with market share data and user-selectable pivot table.

### Reports

Topical report providing focused analysis of critical markets, technologies, and trends within the wider data center industry

### Analyst Access

For prompt responses to urgent and unique questions.

## Clients of this Intelligence Service will receive:

**Rack Power Distribution Units Market Tracker** – database containing detailed statistics on the sizes of the global and regional rack PDU markets, segmented by region, product type, power rating, form factor, input phase, sales channel, and vertical market; accompanied by written analysis. Delivered semi-annually.

**IT Racks and Enclosures Market Tracker** – database detailed statistics on the global and regional rack/enclosure markets by product type, dimension, color, application, vertical market, and sales channel; accompanied by written analysis. Delivered semiannually.

**Topical Reports** – IHS Markit perspectives on wider data center industry markets and trends that influence rack level infrastructure. Topics include:

- System integrators as a channel
- Macroeconomic climate
- End-user survey
