

TECHNOLOGY, MEDIA & TELECOM INTELLIGENCE SERVICE

China Semiconductor

Complete examination of China's electronic and semiconductor industries including analysis of the supply chain, competitive landscape, market opportunities and challenges

Real time access to a continuous flow of research across geographies, topics and application areas:

Clients of this Intelligence Service will receive:

Market Insights

Frequent analyst commentary on product launches, market news and analysis.

Market Trackers

Historic and forecasted data, delivered in Excel and in TRAX®, an online analysis tool accompanied by written analysis.

Analytical Database Tool

Tailored views of application equipment and/or semiconductor device market data.

Analyst Access

For prompt responses to urgent and unique questions.

Application Market Forecast Tool (China) – provides forecasts for semiconductor components revenue and electronic equipment factory shipments, revenue and growth rate by application market; application market by semiconductor device and share of total market also available; updated quarterly

Application Market Forecast Tool (China Local Design) – provides data on systems shipped from Chinese OEMs, ODMs and IDH; detailed by application market, application equipment and semiconductor device; updated semi-annually

Supplier competitive analysis of 250+ companies engaged in the China space – provides graphical, customizable display of market share revenue for a selected company including analysis by semiconductor segment and region (annual)

Semiconductor Demand Market Tracker – documents market details and development of China's local design semiconductor market by device and application market; updated semi-annually

Semiconductor shipment forecasts for key application markets in China – offers data and complementary written analysis:

- Semiconductor Industry Market Tracker (quarterly)
- Automotive Semiconductor Market Tracker (semi-annually)
- Industrial Semiconductor Market Tracker (semi-annually)

Mobile Phones and Electronics Market Tracker – provides shipments and revenue forecasts for China's domestic mobile phone market as well as competitive analysis of the top Chinese handset OEMs

Microcontrollers Market Tracker – provides China MCU shipment forecast by application market; updated semi-annually

FEATURED TOPICS

- Continued development of China's semiconductor industry
- Market opportunities and challenges for business development
- Government policies and regulations
- Supply chain analysis
- Technology and price trends

Research Coverage

Application Markets	Device Categories	Measurements
Data processing Wired communications Mobile communications Consumer electronics Automotive electronics Industrial electronics	Memory IC Microcomponent IC Logic IC Analog IC Discretes Optical semiconductor Sensors & actuators	Unit shipments Revenue ASP Market Share

Market Trackers and Analytical Database Tool	Detail
Application Market Forecast Tool (AMFT) - China (quarterly)	6 application markets / 102 submarkets 7 semiconductor device categories 36 semiconductor devices
Application Market Forecast Tool (AMFT) - China Local Design (semi-annual)	6 application markets / 102 submarkets 7 semiconductor device categories 36 semiconductor devices
Competitive Landscaping Tool (CLT) – Greater China (annual)	250+ companies 36 semiconductor devices 2 Regions (China/Hong Kong and Taiwan)
Semiconductor Demand Market Tracker - China Local Design (semi-annual)	7 application markets Top-40 products 4 devices (memory, MCU, logic IC, analog IC)
Semiconductor Industry Market Tracker - China (quarterly)	Policy and regulation Chinese foundry and fabless revenue / technology Chinese semiconductor companies by application
Automotive Semiconductor Market Tracker - China (semi-annual)	5 automotive applications (power train, body, chassis and safety, ADAS, infotainment) Automotive semiconductor vendor ranking
Industrial Semiconductor Market Tracker - China (semi-annual)	8 industrial applications 7 semiconductor device categories Vendor ranking
Mobile Phones & Electronics Market Tracker - China (semi-annual)	By technology, sales channel, ASP, feature Top-10 Chinese OEMs Domestic vs. export
Microcontrollers Market Tracker – China (semi-annual)	By technology 6 application markets Vendor ranking

About IHS Markit

IHS Markit (Nasdaq: INFO) is a world leader in critical information, analytics and solutions for the major industries and markets that drive economies worldwide. The company delivers next-generation information, analytics and solutions to customers in business, finance and government, improving their operational efficiency and providing deep insights that lead to well-informed, confident decisions. IHS Markit has more than 50,000 key business and government customers, including 85 percent of the Fortune Global 500 and the world's leading financial institutions. Headquartered in London, IHS Markit is committed to sustainable, profitable growth.
