

IHS MARKIT TECHNOLOGY INTELLIGENCE SERVICE

Embedded Computer Boards, Modules and Systems-Annual

Monitor and analyze important trends, gauge market shifts, and make informed business decisions.

COVERAGE

- 5-year Forecast
- 10 Industry Sectors
- Regional-level market shares
- Revenues
- Shipments
- Average Selling Prices
- Key Trend Analysis

Flagship Product

Comprehensive report and accompanying database, updated once per service year.

Market Briefs

Studies addressing key trends throughout the year.

Analyst Insights

Client-exclusive commentary on developments throughout the year.

Analyst Access

For prompt responses to urgent and unique questions

Clients of this service will receive:

Embedded Computer Boards, Modules & Systems Report (flagship product) – Updated once per service year, this report provides detailed, up-to-date qualitative and quantitative analysis of the market.

This report provides a comprehensive analysis of the merchant (or open) market for embedded computing. Six major technology categories are covered, with detailed breakouts by region/country, form factor, and industry sector. It also includes market share analysis of the leading technology providers in each region..

Market Briefs – Three additional studies provide analysis throughout the year on larger industry trends and developments impacting the market. Market briefs are approximately 15 pages.

Analyst Insights – These blog-style entries provide exclusive commentary on industry events or other developments throughout the year.
