

TECHNOLOGY INTELLIGENCE SERVICE

Home Networks

Provides a strategic and tactical overview of the market for broadband customer premise equipment and home networking

Real time access to a continuous flow of research across geographies, topics and application areas:

FEATURED TOPICS

- Broadband technologies incl. Cable, DSL, FTTP, Wi-Fi
- Broadband devices including EMTA, Gateways, MHG, Modem, ONT and Routers, Adapters and STBs
- Vendor and IC Market Share
- Key Market Metrics incl. ASPs, Installed Base, Revenues, Shipments

Market Insights

Frequent analyst commentary on product launches, market news and analysis.

Reports & Surveys

Annual topical reports and surveys addressing key focus areas, detailing country, company and industry-level analysis.

Market Trackers

Historic and forecasted, delivered in Excel and in IHS TRAX®, an online analysis tool.

Analyst Access

For prompt responses to urgent and unique questions.

Briefings

Quarterly scheduled briefings with analysts on research highlights from all aspects of the market.

Clients of this service will receive:

- **Annual Data and Analysis for 160 countries** – Includes country level visibility on shipments, revenues, equipment installed base, and ASPs as well as market shares for equipment and IC vendors, with quarterly market size and share data available at a regional level for key technologies.
- **Detailed Segmentation of Home Network Devices** – Split by access platform, access technology, device type, Wi-Fi specification, and home networking support.

Continued Overleaf

Database of Broadband CPE – Contains shipment, installed base and revenue forecasts, for over 156 countries, and also includes regional totals. These forecasts are segmented by an array of technology types including: platform (cable, DSL, FTTP), Device type (Gateway, MHG, Modem, ONT, and Router), E-MTA, Access technology (Active Ethernet, ADSL, ADSL 2+, DOCSIS [1.0/2.0/3.0], EPON, and GPON) and Wi-Fi specification. The database also contains market share data for the largest broadband CPE manufacturers.

Key Silicon Data – includes analysis of supply chain trends and semiconductor market share.

Quarterly data by technology – includes shipment, revenue and market share information for Asia Pacific, EMEA, North America, South & Central America.

Contextual Data on the Pay-TV and Connected Devices Market – from IHS's leading Set-top Box Intelligence and Broadband Technology Intelligences research practice.

Database of Home Networking Devices (coming in December 2015) – containing annual and biannual shipment, revenue and market share data on retail routers, STBs with home networking, and coax, powerline and Wi-Fi network adapters by region.
