

IHS MARKIT TECHNOLOGY INTELLIGENCE SERVICE

Intruder Alarms & Monitoring Services

Complete examination of the intrusion industry, including competitive analyses of the top suppliers and purchasers.

COVERAGE

- Market leaders by service and equipment types
- How quickly consumers are transitioning to the monitoring of smart devices and systems
- Competition from the DIY monitored systems, and how it's changing the landscape
- Demand drivers for monitoring services at a country level
- Demand variances by channel for intruder alarm equipment

Flagship Product

Core database covering global and regional markets for intruder alarms and remote monitoring services. One update per service year.

Reports

Analysis on trends affecting the market.

Databases

Containing select country level detail throughout the year.

Market Insights

Analyst commentary on product launches, market news and analysis.

Analyst Access

For prompt responses to urgent and unique questions.

Subscribers of this service will receive:

Intruder Alarms & Monitoring Services Database (Flagship)

– Provides an up-to-date, comprehensive assessment of the market for intrusion equipment and remote monitoring services with forecasting and trends analysis over the next five years. This includes market shares for major suppliers in each product category. This component is delivered once per service year, with delivery in Q2.

Remote Monitoring Services Database (NEW DATA)

Reports – Written analyses will accompany the databases released throughout the year.

Country analysis database

- North America Deep Dive
- Additional Deep Dive (region tbd)

Market Brief

- Physical Security Equipment & Services Report

Topical Report

- Video Verification

Analyst Insights – The latest market news, including construction
