

## Technology Intelligence Service

# Premium Solar

Comprehensive data and analysis on the global PV market

Identify and maximize near and long-term opportunities across the industry with unrivalled market data and insights.

### BENEFITS:

- The most comprehensive source of forecasts, data and insights on the global PV industry
- Regularly updated market trackers spanning downstream markets, the PV module supply chain, and PV inverters
- A wide range of topical reports providing additional analysis on key market segments and hot topics.

### Data

Market trackers and databases, delivered in Excel Tables including revenues, units, ASPs, market shares and products.

### Data Visualization

Uncover and understand actionable insights through our unique and flexible data visualization tool.

### Reports

Regular reports addressing key focus areas and hot topics.

### Analyst Access

For prompt responses to urgent and unique questions.

**The Premium Solar Intelligence Service** comprises all of the solar market analysis delivered by IHS Markit. This includes highly detailed and regularly updated forecasts for demand, as well as a wide range of market trackers providing detailed analysis of technology and the supplier base. This is complemented by a wide range of topical reports that provide focused analysis on specific hot topics and important market segments.

From country profiles focusing on the downstream market environment in specific countries, to forecasts for the deployment of microinverters and the latest PV module technologies, or the margins of wafer and cell manufacturers, this service provides end-to-end coverage of the global PV market.

The analysis is delivered through the IHS Markit Technology customer portal regularly throughout the year to provide you with an unrivalled, always up-to-date source of insight and data on the development of the solar industry.

# Research Coverage

IHS Markit Technology Intelligence Service clients are supported by a continuous follow of research, presented in formats designed to make our insights, analysis, and advice succinct and easily accessible.

## Data

### PV Installations Tracker - Premium

Quarterly updates providing detailed tracking and forecasting of installations in all major and emerging PV markets, including annual and quarterly data, with segmentation by installation and system type.

### PV Inverter Market Tracker

Quarterly updates providing detailed tracking and forecasting of PV inverter shipments, revenues and pricing, including annual and quarterly data, with segmentation by power rating, voltage, type, isolation and sales channels. Trackers also includes over 50 detailed market shares by world, region and country

### PV Module Supply Chain Tracker

Combines analysis of the markets for polysilicon, solar wafers, PV cells and modules, with forecasts for PV installations, assessing the balance between supply and demand, and the impact on pricing and margins throughout the supply chain.

### PV Suppliers Tracker

Contains detailed data on the performance of leading companies in the PV module supply chain, and provides a detailed database of capacity, production, utilization and shipments for polysilicon, wafer, cell and module suppliers.

### Solar EPC and O&M Provider Tracker

A detailed report revealing who the leading system integrators (EPC's) are worldwide and by region, showing market shares, rankings, over 500 company profiles and analysis. A comprehensive analysis of the O&M provider landscape by region is also provided.

### Solar Deal Tracker

Comprehensive database coverage planned and completed solar projects by installer, project developer, market segment, country, and other important criteria via an online dashboard.

## Analysis

Topical reports are published regularly, providing a deep-dive into hot topics and key market segments. Recently published reports include:

- Floating PV Report
- PV Module Advanced Technologies Report
- Latin America PV Asset Ownership & O&M Report
- PV Inverter Supplier Scorecard
- North America EPC & O&M Report
- PV Module Supplier Scorecard
- PV Microinverters & Power Optimizers Report
- Section 201 & PV Demand Report
