

Video Surveillance - Annual Video Surveillance - Annual - Premium

Extensive coverage of the market for video surveillance equipment, providing in-depth data and analysis.

COVERAGE

- Regional and global market forecasts
- Unit shipments
- Revenues
- Average Selling Prices
- 10 main product categories
- Revenues for over 40 countries
- Revenues for 17 end-user sectors
- Premium version provides units, revenues, and ASPs data by 13 sub-regions in addition to standard 5 regions.
- Premium version subscribers receive 3 deep dive sub-regional reports each subscription year.

Databases

Forecasts and market share estimates, delivered in Excel.

Briefs & Reports

Market briefs – analysis and insights from the dataset.
Reports – analysis of key technology trends and industry conferences.

Analyst Access

For prompt responses to urgent and unique questions.

Analyst Insights

Client-exclusive commentary on developments throughout the year.

Clients of this service will receive:

Video Surveillance Market Share Database (flagship product)

Delivered in Excel and fully updated once per annual subscription each May. This database provides market share tables by product for each region - EMEA, Americas, Asia, China and World. *Premium subscribers receive shares by sub-region.*

Video Surveillance Intelligence Database (standard and premium versions)

This database provides comprehensive market size data and forecasts of the video surveillance equipment market segmented by a broad range of criteria. The premium database has additional geographic granularity. See details of coverage on the next page.

Market briefs and reports

Studies delivered throughout the year, focused on either analysis of the core databases or analysis of trends and reactive events in the wider physical security industry. These reports contain the analyst insight and to help clients understand the factors driving the markets covered.

Physical Security Equipment & Services Report

A total industry snapshot – this report presents an overview of the physical security market by collating top level data from other IHS Markit research products. It includes segmentation by security equipment type (video surveillance, access control and intrusion detection); services (systems integration, as a service models and remote monitoring revenues); end-user verticals; and geographic region.
