

Information Mosaic

The leader in global post-trade securities and corporate actions processing

Our team of leading business and technology experts continuously explore new ways to deliver innovative solutions to the middle and back-office. We work with the world's premier financial institutions, building long-term strategic relationships based on mutual success.

Our clients value our deep industry knowledge of post-trade operational processes and our understanding of multi-regional compliance. Helping clients achieve superior performance and strategic value from their operations investment is our single objective.

Solution set

We lower total cost of ownership by increasing automation and standardizing processes using a modern, scalable platform that facilitates growth without a linear increase in costs.

IMSecurities

End-to-end post-trade securities processing platform
