

Many OEMs will still be challenged to meet future emissions regulations

9 out of 9

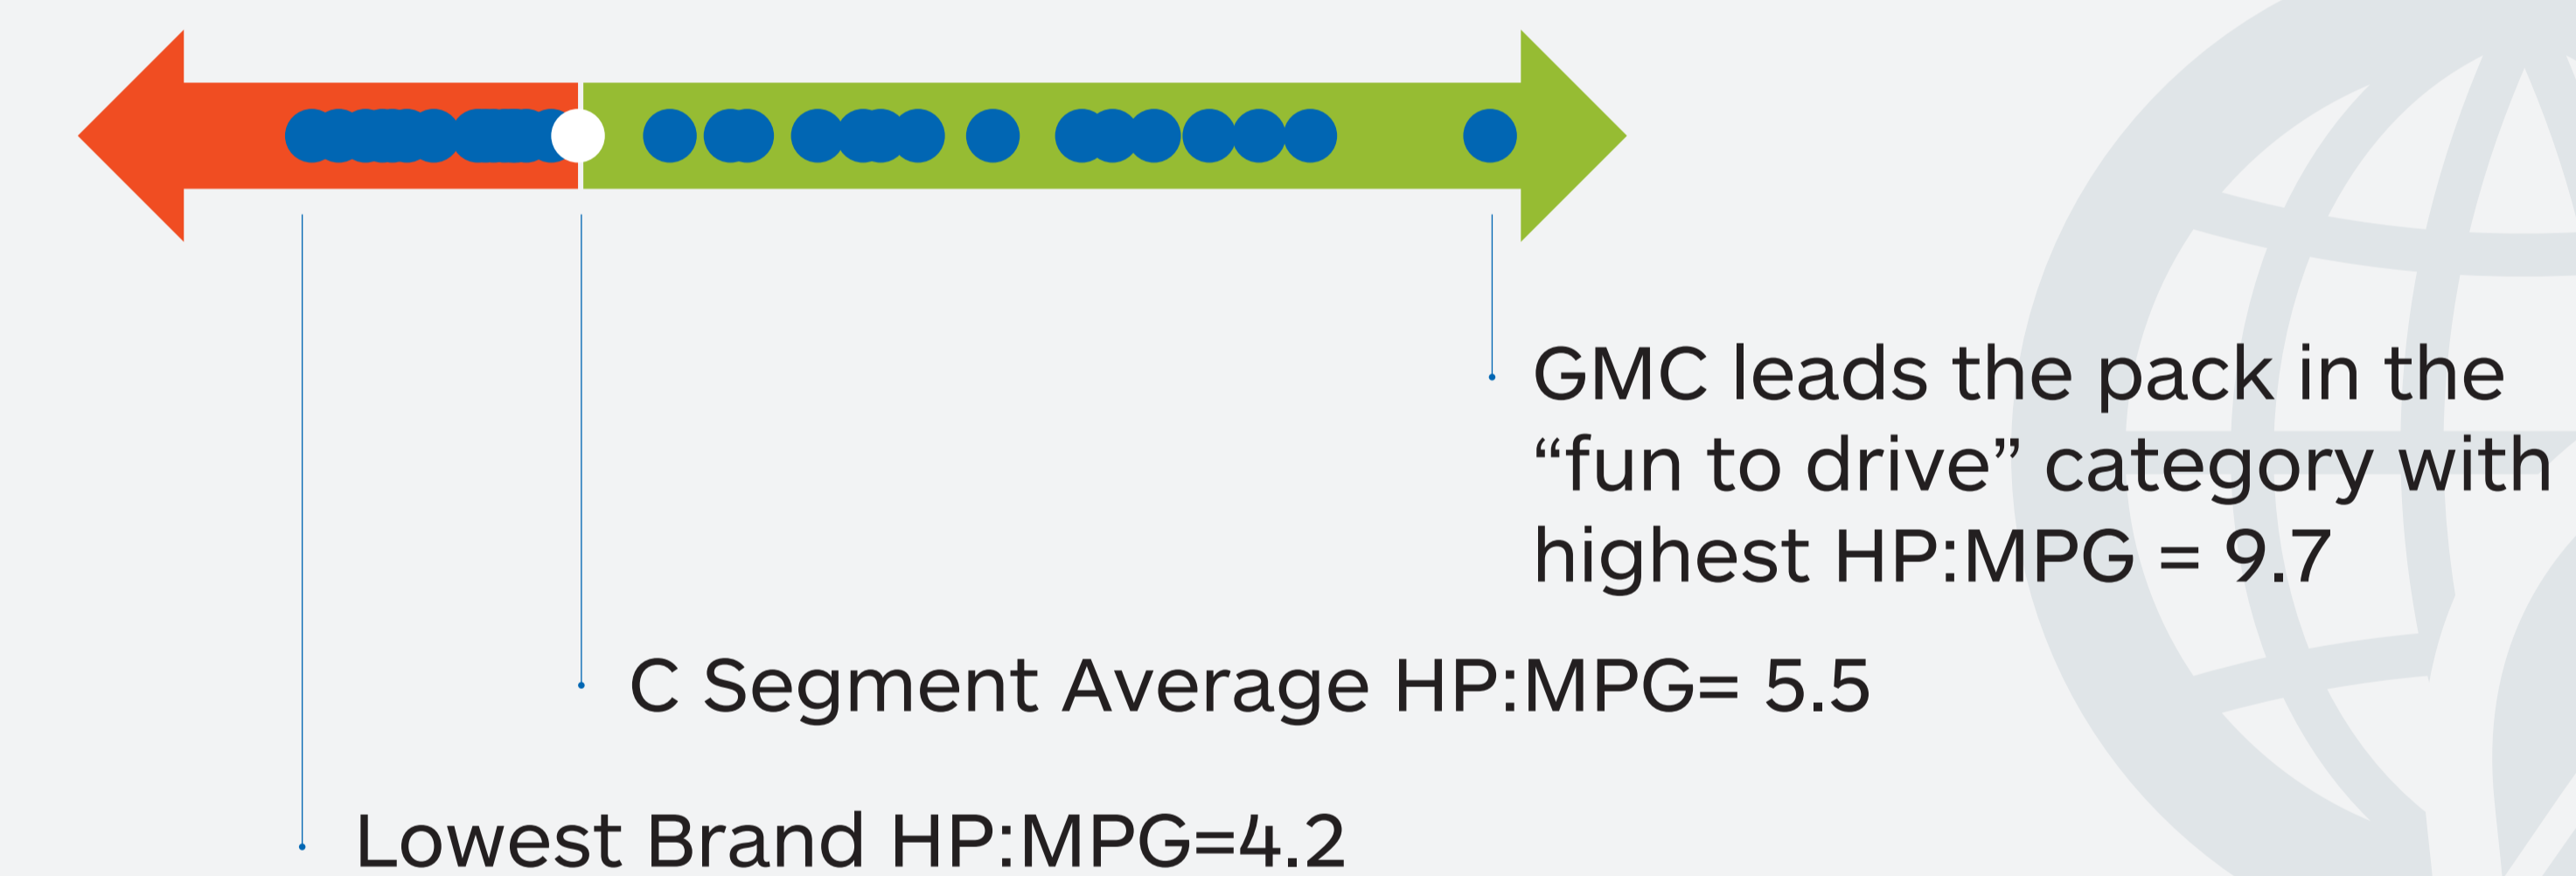

US passenger car manufacturers of record

- Compliant
- Missing to Compliant
- Overcompliant

Competitive Trade-off

U.S. OEMs that are further behind may have to sacrifice vehicle performance to become compliant.

Will your vehicle fleet be compliant?

IHS AUTOMOTIVE
driven by POLK

\$400 billion

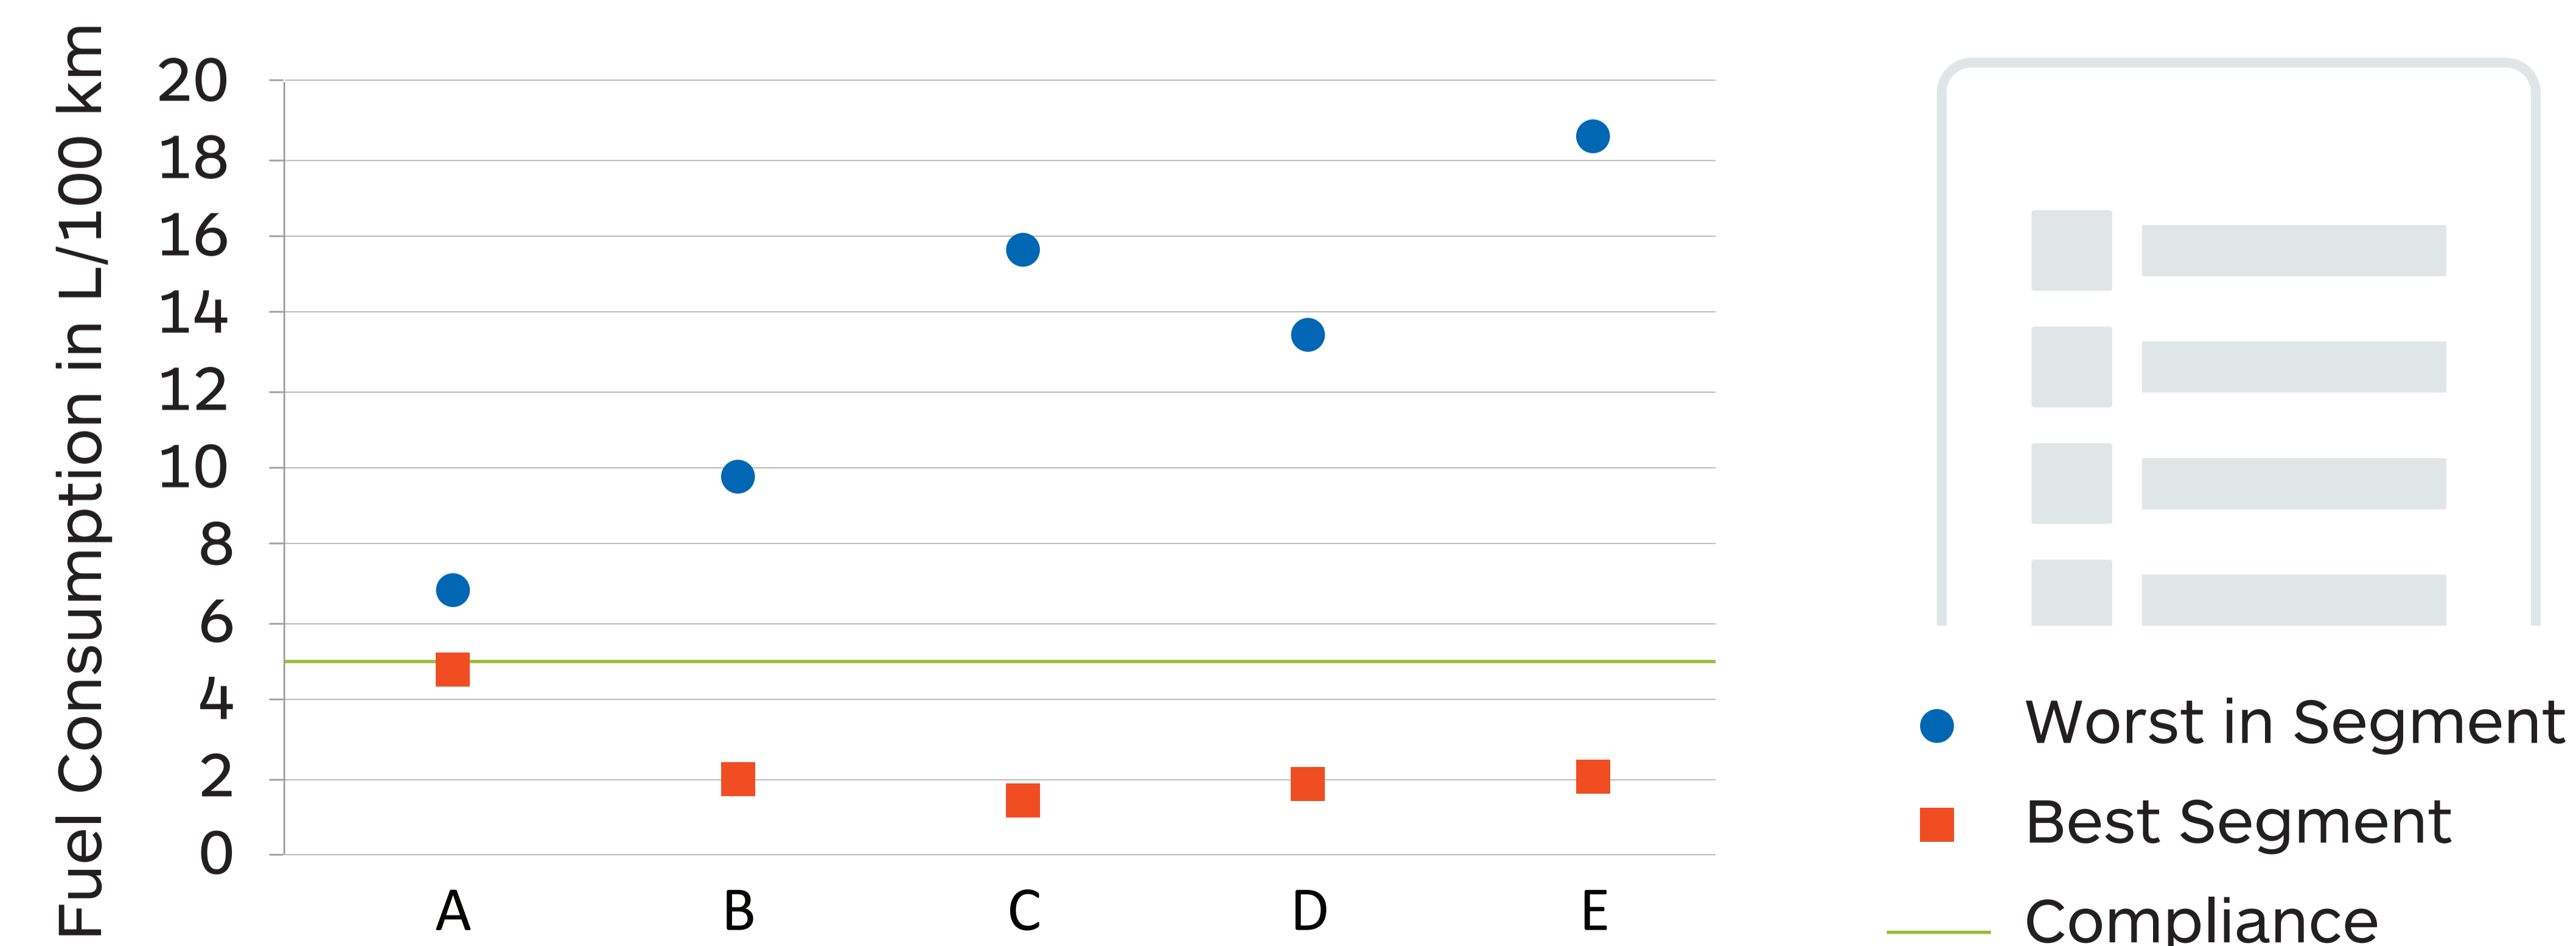

Estimated global incremental spend on technology solutions for light-duty vehicle energy management to 2020.

15.1g/km
average reduction in CO₂
across the Top 30 EU28 Fleets
(between 2015 and 2021)

Each segment tells a different compliance story

China; 2021

Balancing powertrain R&D with market demand and regulatory compliance can be complex and costly. Are you leading or lagging the market? What are the implications?
