Unit : 522 Squadron, Transport
: 565 Squadron, Transport
: 575 Squadron, Communications

MILITARY BASES

Base name : Damascus International Airport
Latitude : 33.4267800
Longitude : 36.5200800
No. of runways : 2
Runway length (m) : 3,534
Runway elevation (m) : 612

EQUIPMENT SPECIFICATION

Type : An-26; Il-76; Yak-40; Falcon 20E;
Falcon 900

IHS Jane's

Identify. Manage.
Share. Focus. Deliver.

OSINT imagery, information, and analysis from two of the world's leading expert organisations to help Intelligence communities identify areas of focus in countries of conflict and high risk.

Identify. Manage. Share. Focus. Deliver.

Conflict Atlas is a powerful GEOINT tool that enables intelligence professionals to share and verify important content, reduce the demands on big data, and quickly identify areas that require immediate focus to deliver clear, actionable results.

A Unique Partnership

A unique partnership

Airbus Defence and Space delivers the smartest constellation combining radar and optical satellites, wide coverage 1.5m resolution satellite imagery across whole countries with a 0.5m resolution focused on areas of interest such as bases, conflict zones, and populated areas.

IHS Jane's global team of experts delivers geospatial layers identifying military bases, military capability data, news, image analysis, and terrorism events. The solution will also utilise IHS Jane's equipment specifications data to help with the identification of platforms on the ground.

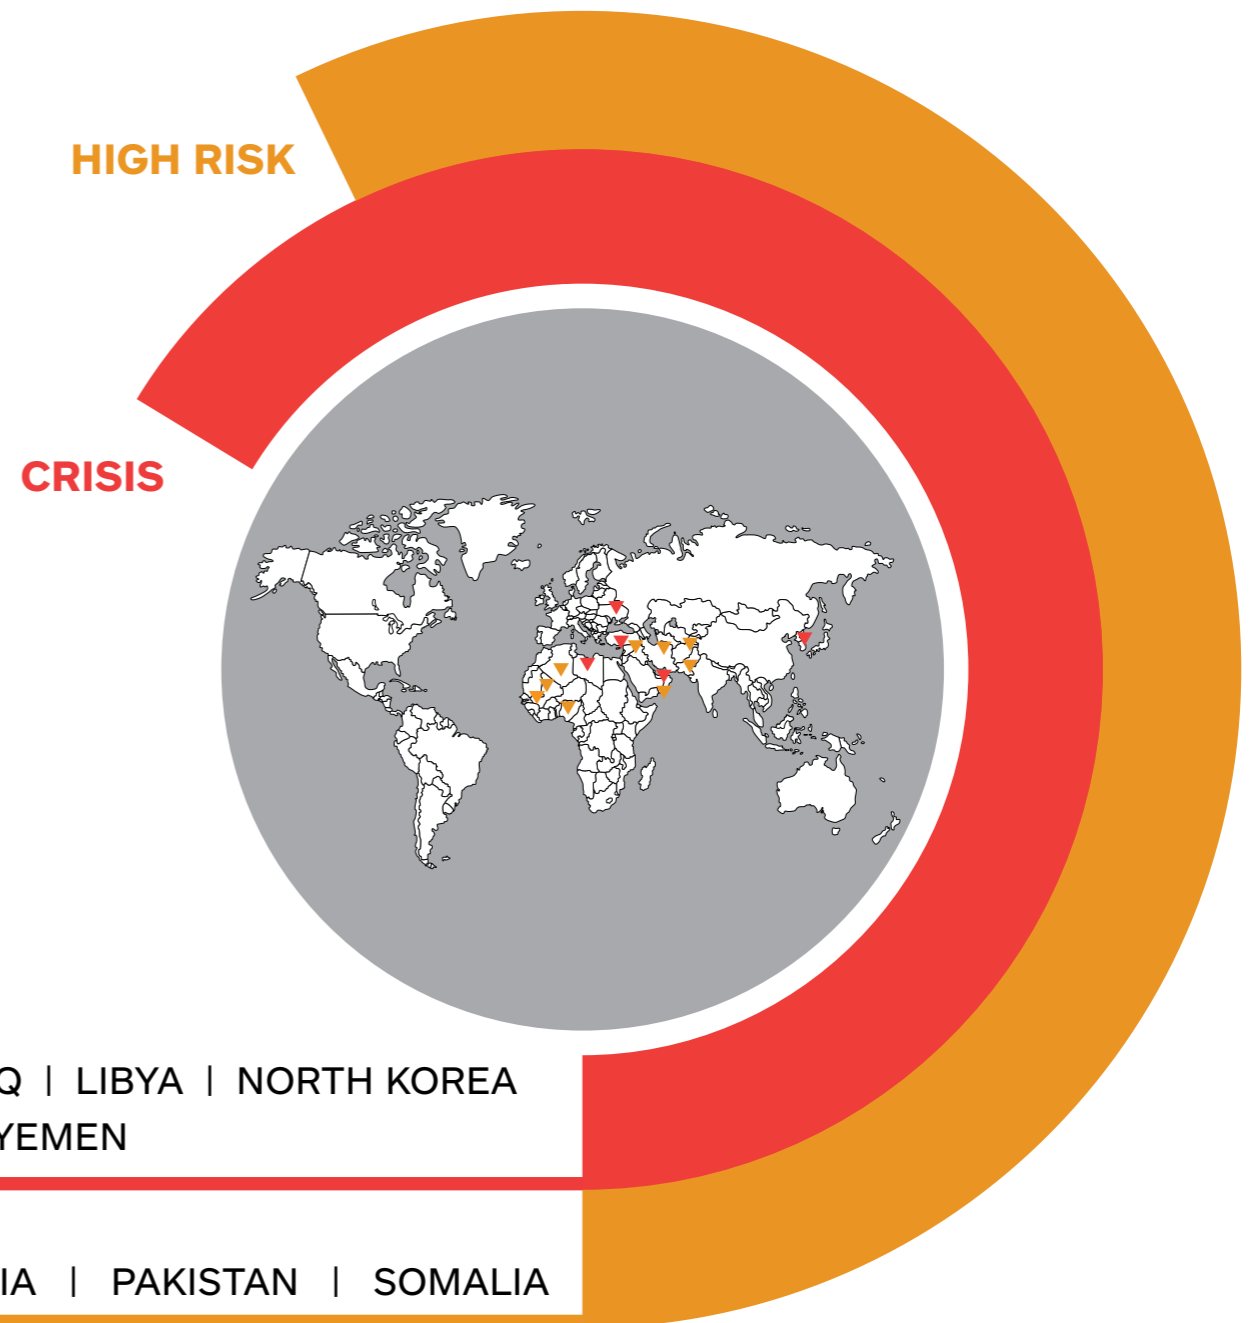

IHS Jane's

Coverage of areas of crisis and high risk

Conflict Atlas allows you to build up a detailed picture of events in volatile regions to increase your situational awareness and ability to anticipate and respond to threats.

Coverage of Areas of Crisis and High Risk

GEO packaged content, delivered offline for easy integration into your internal analytical systems

Geo Packaged Content, Delivered Offline for Easy Integration Into Your Internal Analytical Systems
