ABOUT IHS

IHS (NYSE: IHS) is the leading source of insight, analytics and expertise in critical areas that shape today's business landscape. Businesses and governments in more than 150 countries around the globe rely on the comprehensive content, expert independent analysis and flexible delivery methods of IHS to make high-impact decisions and develop strategies with speed and confidence. IHS has been in business since 1959 and became a publicly traded company on the New York Stock Exchange in 2005. Headquartered in Englewood, Colorado, USA, IHS is committed to sustainable, profitable growth and employs about 8,800 people in 32 countries around the world.

IHS CHEMICAL

Directory of Chemical Producers

Your tool to identify chemical manufacturers, plant locations and products.

Make Better
Decisions

- With thousands of global chemical manufacturers, it is important to have a single and reliable source to help you quickly find the information you need.
- Who manufactures a specific chemical? Where is the production site located?
 - What chemicals are made at a specific plant location?
 - Where does a company manufacture chemicals globally?
 - Who are their chemical manufacturing subsidiaries and joint ventures? What chemicals are made by these companies?

The Right Tool

For over 50 years, IHS Chemical's Directory of Producers (DCP) has been delivering comprehensive, accurate and timely coverage of the chemical industry. Marketing, Sales, Business, Procurement and Distribution Managers look to the DCP to keep informed about chemical manufacturers, their plant locations and chemical products.

The Directory of Chemical Producers is the right choice for:

- Identifying chemical manufacturers and plant locations globally
- Profiling companies by chemicals produced and ownership
- Determining which producers are integrated upstream for raw materials and downstream for derivatives
- Analyzing what markets your competition operates in
- Evaluating chemical production on a plant-by-plant basis
- Understanding capacity for over 250 chemicals

Express and
Advanced Search
Functionality
Accelerates and
Simplifies Your Work

You can access the extensive information within the Directory of Chemical Producers through two easy-to-use search options. Conduct simple searches by company name, chemical name, CAS number, plant location or by company ownership using the DCP express search. For a search using a combination of factors, use the advanced search method. This choice will narrow your results, providing you with the data you need faster.

What Sets the
Directory of
Chemical
Producers Apart?

>21,500 Chemicals Recorded on a Plant-by-Plant Basis

Unique to the Directory of Chemical Producers, listing of each chemical by plant location enables you to form links between each chemical manufacturing site and the company's current product portfolio.

Capacity Data for over 250 Chemicals

Identify the largest producers in a country or region. Includes capacity data for major petrochemicals, organic intermediates, fibers, polymers, and inorganics.

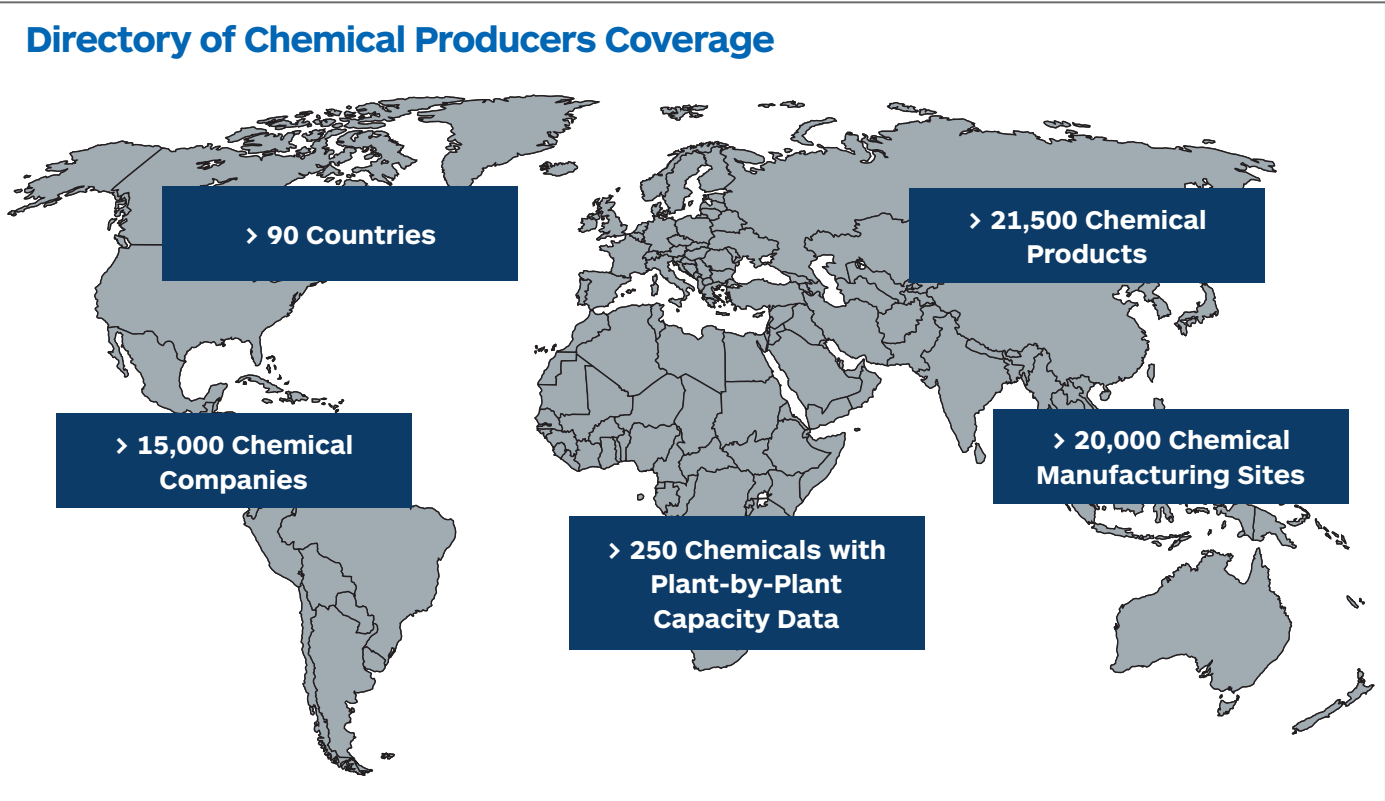

Credible Data Backed By IHS Chemical Expertise

Researched and updated in conjunction with other IHS Chemical products, the Directory of Chemical Producers offers a comprehensive view of the global chemical industry, strengthened by our team of chemical experts. Subscribers to the DCP also benefit from the additional complimentary inquiry service.

Ownership Overview

Conduct your search by ownership to build an integrated view of a company's global operations and product portfolio, including data on major and minor shareholders, as well as chemical manufacturing subsidiaries and joint ventures.

IHS Chemical's Directory of Chemical Producers is the industry's most comprehensive database tool to identify global chemical manufacturers, plant locations and products.

Express and Advanced Search Functionality To Accelerate Your Crucial Buying and Selling Decisions. Search and Navigate by:

Express Search: Conduct simple searches using the DCP express search form.

Advanced Search: Conduct searches using a combination of factors to narrow down your selection.
