

42%

of knowledge workers' time is spent seeking, processing & sharing information

SOURCE: IDC

IHS ENGINEERING WORKBENCH

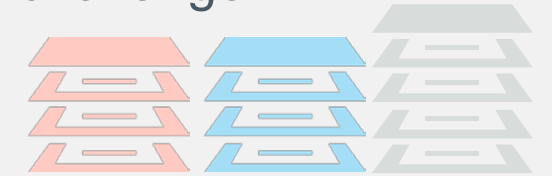

How are information gaps & research inefficiencies destroying engineering productivity?

13 unique data sources

are used to find answers to each engineering challenge

SOURCE: Aberdeen

13%

increase in engineer's time spent searching for information since 2002

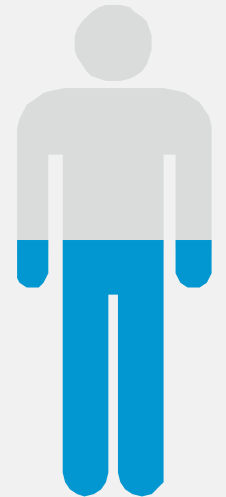

SOURCE: Outsell

Workers can't find the information they need almost half the time.

46%

SOURCE: IDC

IDC estimates time wasted searching for information costs the Fortune 500 between

**\$60-85 Billion in direct costs**  
& twice that in opportunity costs.

SOURCE: IDC

IHS Engineering Workbench accelerates productivity by quickly connecting engineers and other technical professionals to the answers they seek. Give your engineers back 1/3 of their research time.
