

The PV Inverter market continues to experience strong growth in 2017 and the future looks bright

## PV inverter market global revenues

7.1m units of PV inverters sold in 2016

38% projected inverter shipments increase from 2016-2021

## Key players

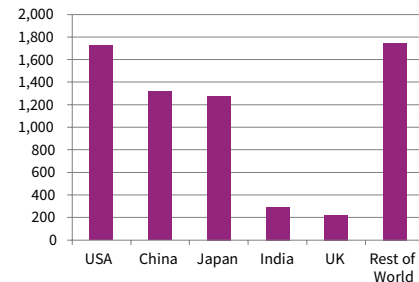

Top ten suppliers combined to account for

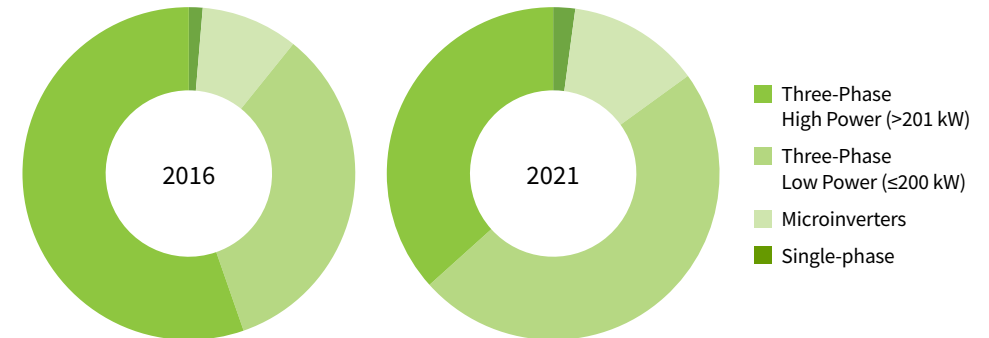

Top suppliers for PV inverters in shipment terms in 2016

1. Huawei
2. Sungrow
3. SMA Solar Technology

## Global PV inverter revenues by key markets in 2016

## Global PV inverter shipments in 2016 vs 2021

The PV inverter intelligence service focusses on providing an in-depth analysis of the global PV inverter and module level power electronics (MLPE) market by providing regular updates via trackers, topical reports and analyst insights. The market is evaluated by various parameters, including regional/country analysis, power rating and product technical segments such as voltage, as well as competitive landscape. In addition, the service provides topical reports on hot topics such as the MLPE market, Chinese inverter market and surveys of end-customers opinions of PV inverter brands and features.
