

Global Acetyls

IHS Chemical Market Advisory Service

Do you need timely market insight into the global acetyls markets?

IHS Chemical Market Advisory Service: Global Acetyls (formerly CMAI's Global Acetyls Market Report) features a team of strategically based experts who monitor the North American, Western Europe and Asian acetyls markets to offer an integrated view of the global market. Understanding individual regional market behavior within the context of the larger, global market is critical for anticipating the acetyls industry's future supply/demand, trade, production cost and pricing dynamics. Clients receive a thorough analysis of the entire value chain, from upstream feedstocks to downstream derivatives. Manufacturers, raw material purchasers, strategic planners, financial analysts and end-users gain the essential insight and information needed to optimize resources, maximize profits and make sound business decisions.

The IHS Chemical Market Advisory Service Advantage:

The global acetyls service equips clients with a complete analytical package, featuring the most reliable and unbiased source of historical and forecast pricing on a global basis. Clients receive a monthly market summary that contains historical and forecast pricing for acetic acid, vinyl acetate, ethyl acetate and acetic anhydride in North America, Western Europe and Asia. The market summary includes commentary on significant events, such as operational and trade changes. Each month, the service rotates coverage of special topics and featured analytics. The report also provides cash margin analysis, regional production economics, current and near-term supply/demand. At the month's end, we deliver the Global Economy and Energy report, which contains economic updates and valuable crude oil and natural gas data. In addition, clients gain entry to our weekly updated On-line Pricing and Economics Database and, most importantly, enjoy direct access to IHS Chemical researchers.

Many clients choose to enhance their service with a subscription to the IHS Chemical World Analysis: Acetyls, a longer-term study that tracks supply/demand, trade and capacity for the global acetyls markets through a five-year forecast. With industry-experienced professionals positioned around the globe, IHS Chemical delivers comprehensive regional coverage and support in a single service.

Product Benefits:

- Monthly Market Summary
- Global Economy and Energy Report
- On-Line Pricing & Economics Database
- Access to IHS Chemical Research Staff

Benefits of the Global Acetyls service include:

Monthly Market Summary

The market summary contains historical and forecast pricing for acetyls in North America, Western Europe and Asia. It also includes commentary on significant events, such as operational and trade changes. Each month, our experts highlight a different topic and feature a rotating set of analytics. Easy-to-read tables on supply/demand, trade, inventories and operating rates make this a convenient yet highly informative reference tool for subscribers.

Product coverage includes acetic acid, vinyl acetate, ethyl acetate and acetic anhydride.

Global Economy and Energy Report

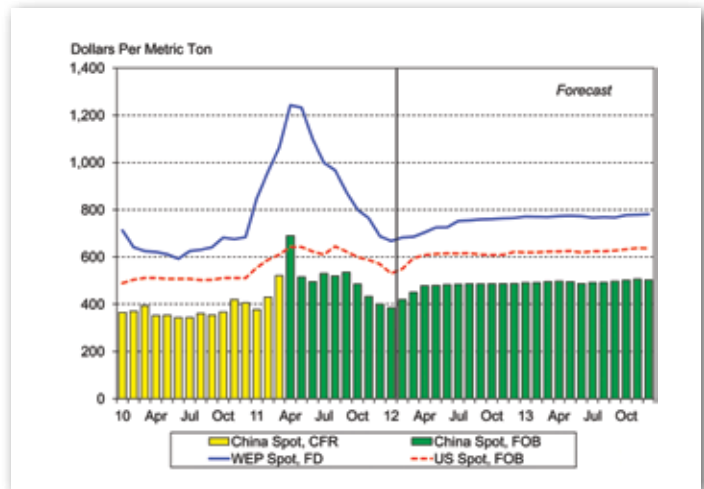

Clients receive this report at the end of each month. It contains discussion of global and regional economic trends, valuable crude oil and natural gas data, as well as insightful commentary from IHS Chemical consultants.

On-line Pricing & Economics Database

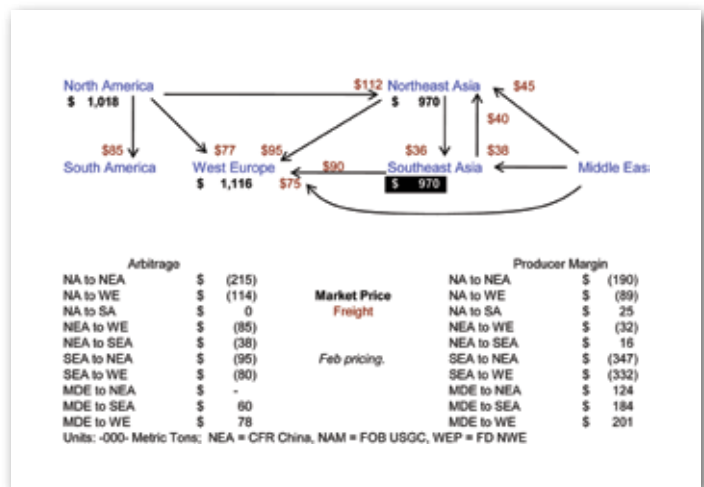

Clients receive a unique username and password to the IHS Chemical website that allows access to our pricing and economics database. This powerful tool is available to clients from any location and is updated weekly with the most current price forecast and cash margin data available. Clients also enjoy unlimited downloads of past issues of monthly PDF reports and other key data tables.

Access to Research Staff

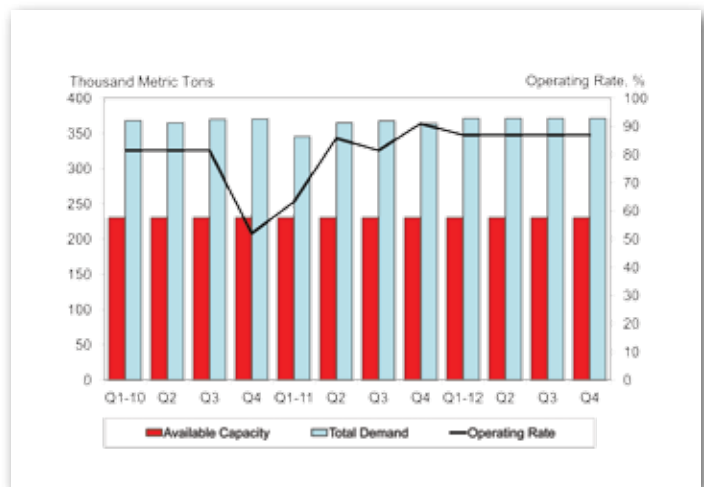

The services include a reasonable amount of access to IHS Chemical's experienced industry professionals for market advice related to the global acetyls industry. Furthermore, any data or graphic contained in the monthly reports can be emailed to clients upon request.
