

North America Polyethylene Report North America Polypropylene Report IHS Chemical Market Advisory Service

It's like having a "mini-retainer" with a plastics consulting company!

IHS Chemical Market Advisory Services: North America Polyethylene Report, and North America Polypropylene Report, deliver to our subscribers not only a wealth of regional industry data on these major thermoplastic resins, but real market insight as well.

The IHS Chemical Market Advisory Service Advantage:

Access to our market analysis, price forecasts and comprehensive database provide both short term and strategic guidance, empowering our clients to maximize the potential of their purchasing spend, and in many cases return the annual cost of our Market Advisory Service with the savings associated with just one order. Let our practice save you time and resources by collecting and translating the data into valuable insights and forecasting advice.

Weekly Deliverables:

- Updates on spot pricing
- Industry highlights

Monthly Deliverables:

- Comprehensive reporting of key industry trends and supply/demand data
- End of month price pages covering benchmark contract, export, and spot pricing
- Monthly market price forecast for two years; annual forecast for five years
- Monthly and annual cost and margin analysis
- Import and export volumes for North America
- Monomer update for North America
- Economy and energy overview report

Online Access to IHS database:

- Forecast and historical resin pricing back to 1990
- Historical and current crude oil and natural gas prices with five year forecast
- Two year quarterly resin supply/demand forecast by industry demand segment with producer capacity and operating rates (updated monthly)

Product Benefits:

- Gain Access To Our Market Experts
- Be Informed of Price Forecasts
- Improve Strategic Planning and Analysis
