

IHS Global Construction Outlook

A complete view of construction markets

The IHS Global Construction Outlook provides the industry's most-comprehensive view of worldwide construction market activity. In addition to quantitative and qualitative insights about construction market drivers and activity, the *Global Executive Overview* and 74 country reports provide a unique assessment of the construction-related risks in each of the markets profiled.

The IHS Global Construction Outlook features:

- Cross-country, comparable construction market data
- Fifteen-year forecasts of annual construction activity by market segment for 74 countries, updated quarterly.
- Global Executive Overview, updated each quarter
- Country snapshot reports, updated each quarter
- Comprehensive country reports, updated annually, including:
 - Analysis of each country's residential, nonresidential, and infrastructure markets
 - Fifteen-year forecasts and in-depth analysis of new construction versus renovation investment for selected countries in Europe
 - Coverage of macroeconomic drivers and their impact on construction activity
- Coverage of six Canadian provinces, plus a regional total for the four Atlantic provinces
- Construction spending reported in current and constant US dollars, euro, and local currency
- Key construction market drivers:
 - Macroeconomic, industrial, and demographic
- Long-term economic and construction market trends
- Historical and forecast data
