

IHS Markit™

# Power & Energy Technology

Extensive coverage of the power and energy technology markets, encompassing solar energy, smart utilities, power supplies, and energy storage.

# Research Type Description

## **INTELLIGENCE SERVICES**

Real-time access to continually updated market data and forecasts, analyst insights, topical research reports and analyst presentations. Interactive visual charting of data is also available through an online portal (TRAX).

## **REPORTS**

Topical reports addressing key focus areas with in-depth analysis on market and technology trends.

## **SCORECARDS**

Focused analysis and profiles that provide the rankings of leading vendors within specific submarkets, using key business and technology criteria.

## **MARKET TRACKERS**

Regular periodic analysis and forecasts designed to provide timely visibility into relevant market and technology trends.

## **CUSTOM & CONSULTING**

Meaningful analysis and action-oriented recommendations for custom cases and consulting, building on extensive IHS Markit data and recognized industry expertise.

# Solar

End-to-end research on the global solar industry. Projects, prices, technologies, market share, and manufacturing are covered in detail to provide the most actionable information on the solar industry.

# Solar

## GLOBAL SOLAR INTELLIGENCE SERVICE

This service provides a detailed and accurate view into established and emerging solar markets. Market trackers, an online project tracker, and reports enable visibility into the entire PV supply chain and downstream activity.

[LEARN MORE](#)

## DOWNSTREAM PV INTELLIGENCE SERVICE

This service offers comprehensive tracking and analysis of the downstream PV market. Market trackers as well as online project and integrator trackers cover solar system installations, market potential, and impactful government policies driving downstream solar activity around the world.

[LEARN MORE](#)

## PV MODULE INTELLIGENCE SERVICE

This service follows closely the ins and outs of PV supply and demand. Four market trackers give access to all aspects of supply, demand, prices, capacity, equipment spending, suppliers, technology roadmaps, and much more.

[LEARN MORE](#)

## PV INVERTER INTELLIGENCE SERVICE

This service delivers essential information on the market for traditional inverters, microinverters, and power optimizers. Market trackers and reports cover supplier market share, policies, and demand at country levels, including China, enabling comprehensive visibility into the PV inverter global market.

[LEARN MORE](#)

# Solar

## **SOLAR INTELLIGENCE SERVICE – NORTH AMERICA**

This service provides current and credible forecasts and analysis for installed PV capacity in North America. Market trackers, an online project tracker, and reports enable visibility into O&M and EPC activity, project activity, and balance-of-system suppliers in North America. The research also includes detailed analysis of the supply chain, with coverage including module and inverter data.

[LEARN MORE](#)

## **SOLAR DEAL TRACKER**

This tracker supplies an extensive database of downstream project activity in key end markets globally. The frequently updated data provides detailed information on both completed and planned projects by installer, project developer, market segment, city, country, installation type, and other important criteria—in a simple online dashboard format.

[LEARN MORE](#)

## **MARKETBUZZ**

Marketbuzz is an annual report on the entire solar industry, offering detailed data and analysis across the complete value chain: from polysilicon manufacturing to policy development. The report answers questions on how the PV industry is performing as well as on its future plans, recent trends, and any promising long-term opportunities.

[LEARN MORE](#)

# Smart Grid & Energy Storage

Detailed and accurate research on energy storage systems and smart grid markets, across all key segments of the industry.

# Smart Grid & Energy Storage

## ENERGY STORAGE INTELLIGENCE SERVICE

This service presents a wide-ranging examination of the market for energy storage systems across all key segments of the industry. Databases and reports cover small and large-scale renewable integration, grid support, and behind-the-meter storage.

[LEARN MORE](#)

## SMART UTILITY METER INTELLIGENCE SERVICE

This service offers nuanced tracking of smart utility meters. Databases and reports cover the most important trends, drivers, and challenges affecting the current and future market for metering solutions.

[LEARN MORE](#)

# Power Supplies & Wireless Charging

Critical insights and in-depth market analysis on power adapters, batteries, wireless power and charging, and power supplies.

# Power Supplies & Wireless Charging

## WIRELESS POWER INTELLIGENCE SERVICE

This service provides deep coverage of the wireless power and charging market. Databases and reports look into the most important trends, drivers, and challenges affecting the current and future market for wireless charging.

[LEARN MORE](#)

## POWER SUPPLY INTELLIGENCE SERVICE

This service delivers strategic insights into power supplies. Data and analysis cover AC-DC and DC-DC merchant power supplies, external power adapters and chargers, digital power, power supplies in key applications, and DIN rail power supplies.
