

NORTH AMERICAN & WESTERN EUROPE

The North American and Western European markets remain flat due to market saturation, with revenues mainly generated from adoption of enterprise-level initiatives as replacements to existing systems.

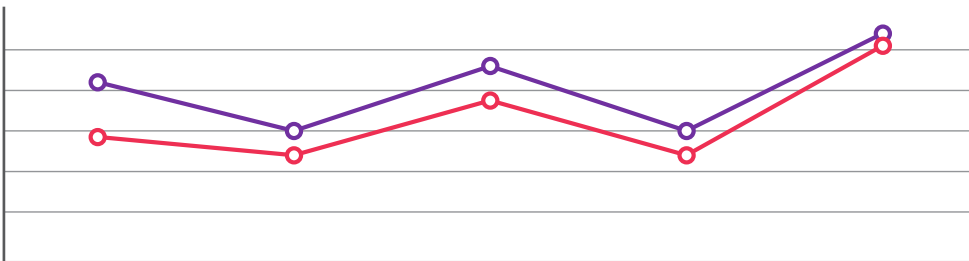

LATIN AMERICA

The Latin American market is contracting over the foreseeable future as Brazil remains in recession and Venezuela's crisis is worsening

ASIA PACIFIC

Global market revenues remained constant between 2015-2016 with the strongest growth in the Asia Pacific region, driven by China.

Global revenue in radiology & cardiology IT

Global revenue in radiology IT is expected to grow steadily at a CAGR of 3.6% over the next 5 years, with stronger growth of **5.4%** projected for cardiology IT.
