

## CHEMICAL MARKET ADVISORY SERVICE

# Global Chlor-Alkali

### PRODUCT BENEFITS:

- On-line Pricing & Economics Database
- Global Market Summary
- Monthly Market Statistics
- Global Mid-Month Price Report
- Global Economy and Energy Report
- Focus Reports
- Periodic Timely Client Webinars
- Access to IHS Markit Chemical Researchers

Chemical Market Advisory Service: Global Chlor-Alkali offers an unrivaled package of analysis, data and forecasting covering the chlorine, caustic soda, hydrochloric acid, potassium hydroxide and sodium sulfate markets. Clients gain the essential insight and information to improve market portfolio planning and make better buying, selling and operating decisions.

### Global Chlor-Alkali Market Advisory Service Coverage:

The Global Chlor-Alkali industry is undergoing massive restructuring in response to China's emergence as the world's largest producer of chlor-alkali/ vinyls and its use of acetylene to make VCM /PVC. Regional production economics as well as supply/demand balances depend on key issues such as availability of chlorine and access to competitive power and salt. Within this rapidly evolving landscape, stakeholders need objective analyses based on complete, accurate data to make careful planning and investment decisions.

Clients of the Global Chlor Alkali Chemical Market Advisory Service receive comprehensive market data and analysis for North America, Asia and Europe markets for:

- Chlorine
- Caustic soda
- Hydrochloric acid
- Potassium hydroxide
- Sodium sulfate

### Advantages of the Global Chlor-Alkali service include:

#### On-line Pricing and Economics Database

Clients receive access to pricing and economics database. This powerful tool is updated weekly with the most current price forecast and cash margin data available.

#### Monthly Market Summary

The end of the month market summary includes historical, current and forecasted prices and through analysis of the market fundamental including plant and project news, trade, operating rates and inventories. The report also delivers analysis on downstream uses, such as vinyls, chlorine derivatives and the alumina and pulp & paper industries.

A new global overview summary and analysis of critical industry issues will also now be included in this report. Clients not only utilize pricing information in the report for buy and sell contracts, but also rely on the market analysis to understand upcoming trends and forecasts.

#### Market Statistics Update

The market statistics update contains operating schedules, near-term supply/demand trends and trade figures. It also includes detailed analysis from both manufacturing and market perspectives. Clients use this information to understand production rates around the world as well as trends in trade between regions and countries.

## Global Mid-Month Price Report

In addition to monthly chemical prices clients will now receive a mid-month pricing report. This will provide an update on the Chlor-Alkali market pricing midway through the month and give clients a sense of market direction.

## Global Economy and Energy Report

Clients receive this monthly report and also enjoy unlimited downloads of past issues of monthly PDF reports and other key data tables. Economic and energy trends feed into the demand and cost analysis concerning the chlor-alkali market and derivatives.

## Focus Report

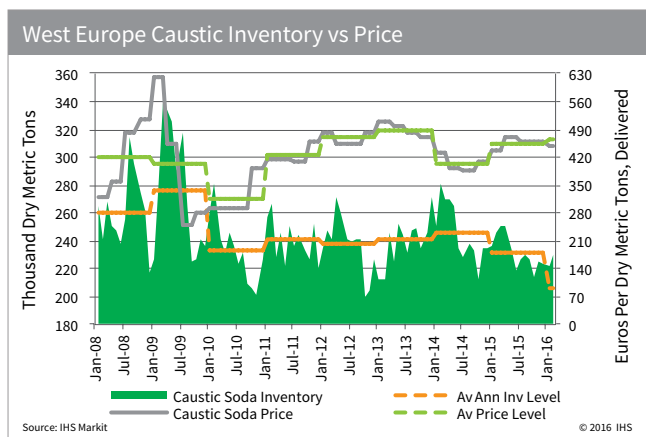

These new reports will provide deep analysis on relevant topics for the industry. Clients are encouraged to suggest topics. At least one report per month will be issued.

## Periodic Timely Webinars

We are now launching periodic webinars that provides clients an opportunity to get updates from the global insight team with a chance to ask questions.

## Access to Research Staff

The Global Chlor-Alkali service includes reasonable access to IHS Markit Chemical's experienced industry professionals for market advice related to the Global Chlor-Alkali markets.

## Discover other IHS Markit Chemical products related to your chemical of interest:

Monthly: Near-term market data and analysis

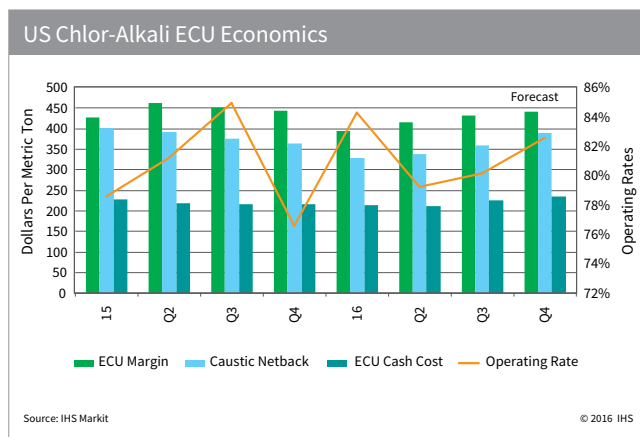

- Chemical Market Advisory Service: Global Soda Ash
- Chemical Market Advisory Service: China Chlor-Alkali/PVC
- Chemical Market Advisory Service: Global Vinyls
- Chemical Market Advisory Service: Global Bleaching Chemicals

Annual: Long-term market data and analysis

- Chemical World Analysis: Chlor-Alkali
- Chemical World Analysis: Soda Ash
- Chemical World Analysis: Vinyls
- Chemical Economics Handbook: Chlorine/Sodium Hydroxide
- Chemical Economics Handbook: Polyvinyl Chloride Resins
- Chemical Economics Handbook: Vinyl Chloride Monomer
- Chemical Economics Handbook: Ethylene Dichloride

Plant production costs and margins

- Competitive Cost and Margin Analytics: Soda Ash
- Competitive Cost and Margin Analytics: Chlor-Alkali
- Competitive Cost and Margin Analytics: PVC
- Competitive Cost and Margin Analytics: Vinyl Chloride Monomer
