

# IHS Petrodata™ FieldsBase

## DATA QUALITY GOALS

At IHS we understand the value of data quality, and our commitment to quality initiatives remains our principal focus. In order to share with you the results of our continuous work, twice each year we publish a summary of some of the various data quality projects we have undertaken in support of FieldsBase. Between July and December of 2015, we made over 32,000 data updates, added and started tracking 196 new offshore projects and published almost 2,000 news stories related to the offshore field development market.

FieldsBase currently tracks **1,227** projects that will become operational in 2016-2021

- 332** Asia-Pacific
- 321** Europe
- 174** Med/Middle East
- 131** West Africa
- 89** Latin America
- 180** North America

## IN THE SECOND HALF OF 2015:

Over **32,000** data updates were recorded
