

IHS Markit™

PENNVEST Nutrient Credit Trading: Forward Auction Participation Phase

IHS Markit / New York / August 2017

Company overview – IHS Markit

- **IHS Markit's Role in Nutrient Credit Trading:**

- Offer Enrollment & Eligibility services through our Markit Counterparty Manager(MCM) system
- Provide auction services, including training on Submitting Bids and Offers using the Markit Environmental Registry

Company overview - PENNVEST

- **PENNVEST's Role in Nutrient Credit Trading:**

- Provide public operated treatment works and regulated point sources with a cost-effective alternative to meeting their nutrient discharge permit requirements
- Reduce risk perceived by credit sellers and buyers that may inhibit growth of the nutrient credit market

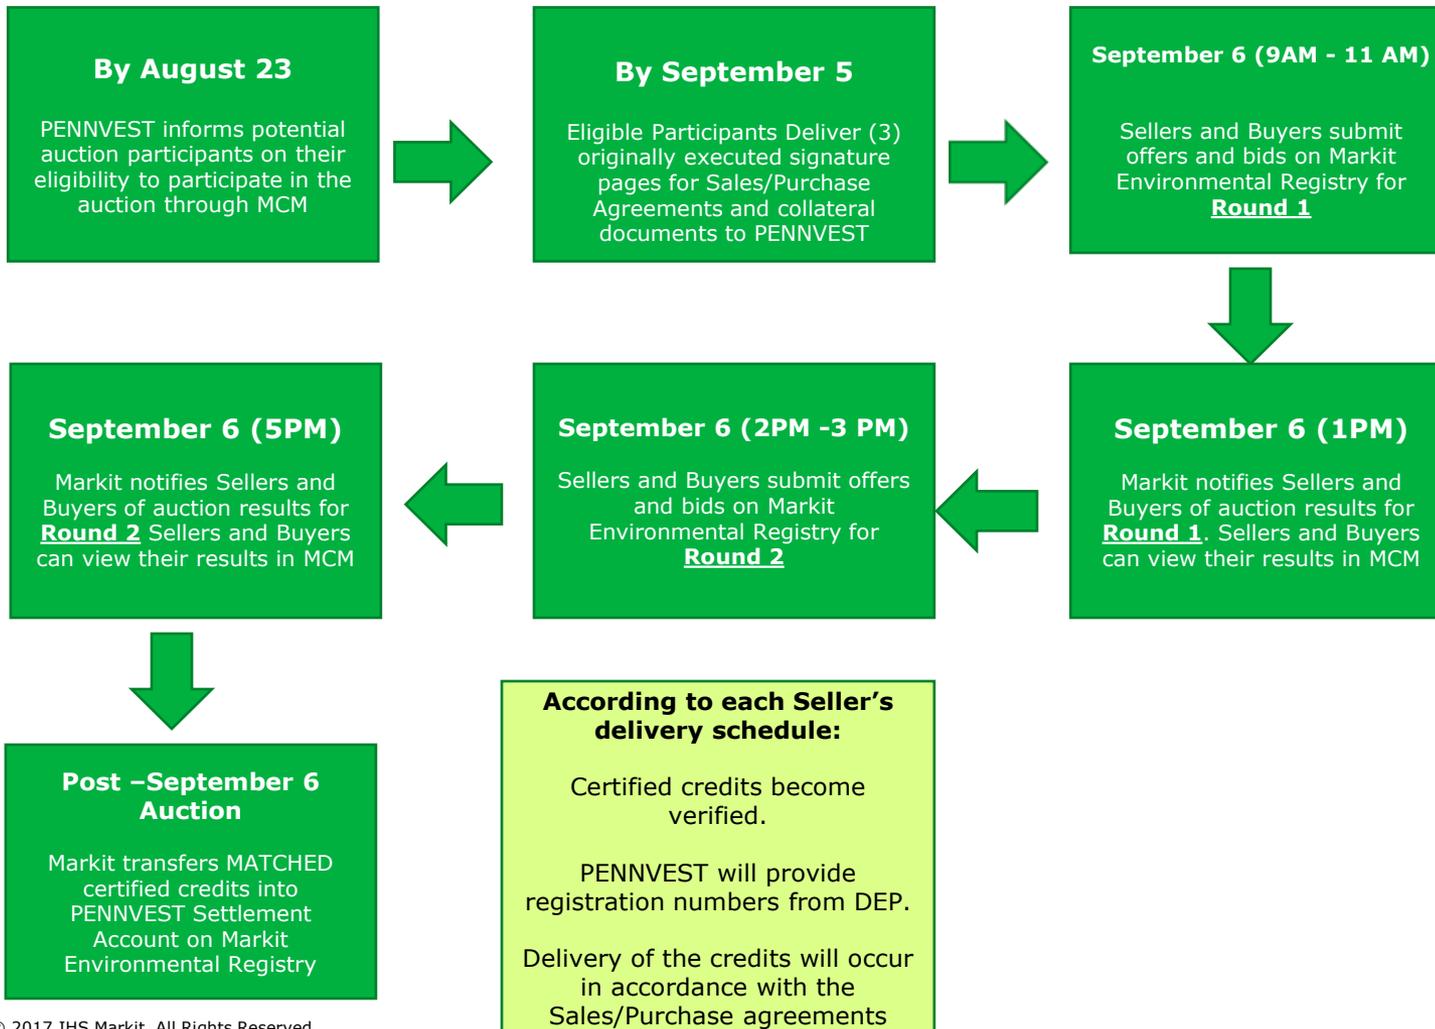

Presentation Outline

- 1. Markit Environmental Forward Auction Participation Process Overview**
- 2. 2-Round Auction Guidelines**
- 3. Logging into Markit Environmental Registry**
- 4. Sellers**
 - Accept certified credit transfers into their Registry accounts
 - Submit single-year offers on Markit Environmental Registry
 - Update offers on Markit Environmental Registry
- 5. Buyers**
 - Submit single-year bids on Markit Environmental Registry
 - Update bids on Markit Environmental Registry
- 6. Participants view auction results**
- 7. Settlement Cycle**

PENNVEST Forward Auction Participation Process Overview

PENNVEST Forward Auction Participation Process Overview

PENNVEST Forward Auction Participation Process Overview

- 1. On or before September 5th** – Deadline to deliver (3) originally executed signature pages for Sales/Purchase Agreements and Collateral documents (if applicable) to PENNVEST (Forum Building - Room 434, 607 South Drive, Harrisburg, PA 17120, Attn: Heather Myers). Note: You cannot submit bids/offers until executed signature pages are received.
- 2.** Once Agreements and Collateral documents are signed by PENNVEST, a PDF version will be uploaded into MCM and accessible for printing.
- 3.** Once credits become verified and registered, PENNVEST will provide registration numbers for payments made on the delivery dates set forth in the agreement.
- 4. For questions regarding this process, contact Robert Boos @ 717-783-4493 or rboos@pa.gov**

2-Round Auction Guidelines

2-Round Auction Guidelines

Auction Style

- Auction will consist of two sealed bid and offer auction rounds
- Both Round 1 and Round 2 will result in settlement prices and transaction of credits
- In Auction Round 2, Buyers and Sellers can only bid or offer for the same combination of compliance year/watershed and nutrient type as Round 1

2-Round Auction Guidelines – Auction Participation Examples

Example 1:

- Buyer or Seller participated in Forward Auction Round 1
- Buyer or Seller submitted a 2017 PARTIAL Potomac Phosphorus bid or offer
- This participant can submit any combination of the following products in Forward Auction Round 2:
 - 2017 PARTIAL Potomac Phosphorus
 - 2017 All/NONE Potomac Phosphorus
- This participant will be allowed to change the quantity and price for their bid or offer

Example 2:

- Buyer or Seller participated in Forward Auction Round 1
- Buyer or Seller submitted a 2017 ALL/NONE Potomac Phosphorus bid or offer
- This participant can submit any combination of the following products in Forward Auction Round 2:
 - 2017 PARTIAL Potomac Phosphorus
 - 2017 All/NONE Potomac Phosphorus
- This participant will be allowed to change the quantity and price for their bid or offer

2-round Auction Guidelines – Auction Participation Examples

Example 3:

- Buyer or Seller didn't participate in Forward Auction Round 1
- This buyer or seller cannot participate in Forward Auction Round 2

Example 4:

- Buyer or Seller participated in Forward Auction Round 1
- This buyer or seller can choose to participate or not in Forward Auction Round 2

2-Round Auction Guidelines

Basic Auction Guidelines:

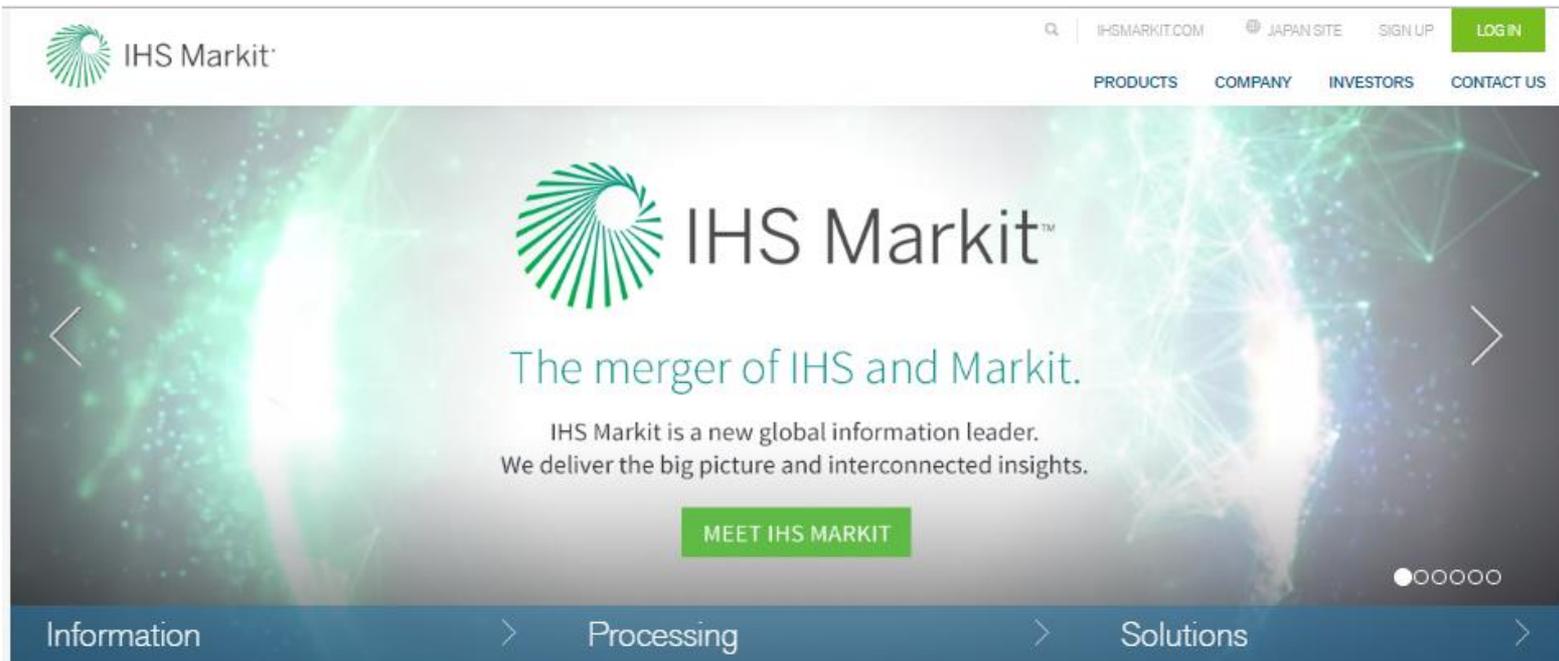

- The goal of the auction is to maximize fills.
- Suggestion to participants: *Partial bids and offers will increase the likelihood of your auction success.*
- If an individual is participating in the auction as both a buyer and a seller, he/she cannot submit bids and offers for the same product type/water year (watershed/nutrient type/water year). E.g. if a participant submits a bid and offer from his/her account for Susquehanna Nitrogen credits for water year 2017, both the bid and the offer will be discarded.
- Buyers can only bid up to the dollar amount limit established in their eligibility letter.
- Sellers can only offer credits up to the credit limit established in their eligibility letter.
- For further details on auction rules, please consult the PENNVEST Nutrient Credit Clearinghouse Rulebook which can be found at:

http://www.pennvest.pa.gov/SiteCollectionDocuments/NCT_Documents/PENNVEST_Nutrient_Credit_Clearinghouse_Rulebook_Version_8_Clean.pdf

Logging into Markit Registry

4. After logging in, you will be prompted to select your Markit Product. Select "Registry" and then "Click."

Logging into Markit Registry

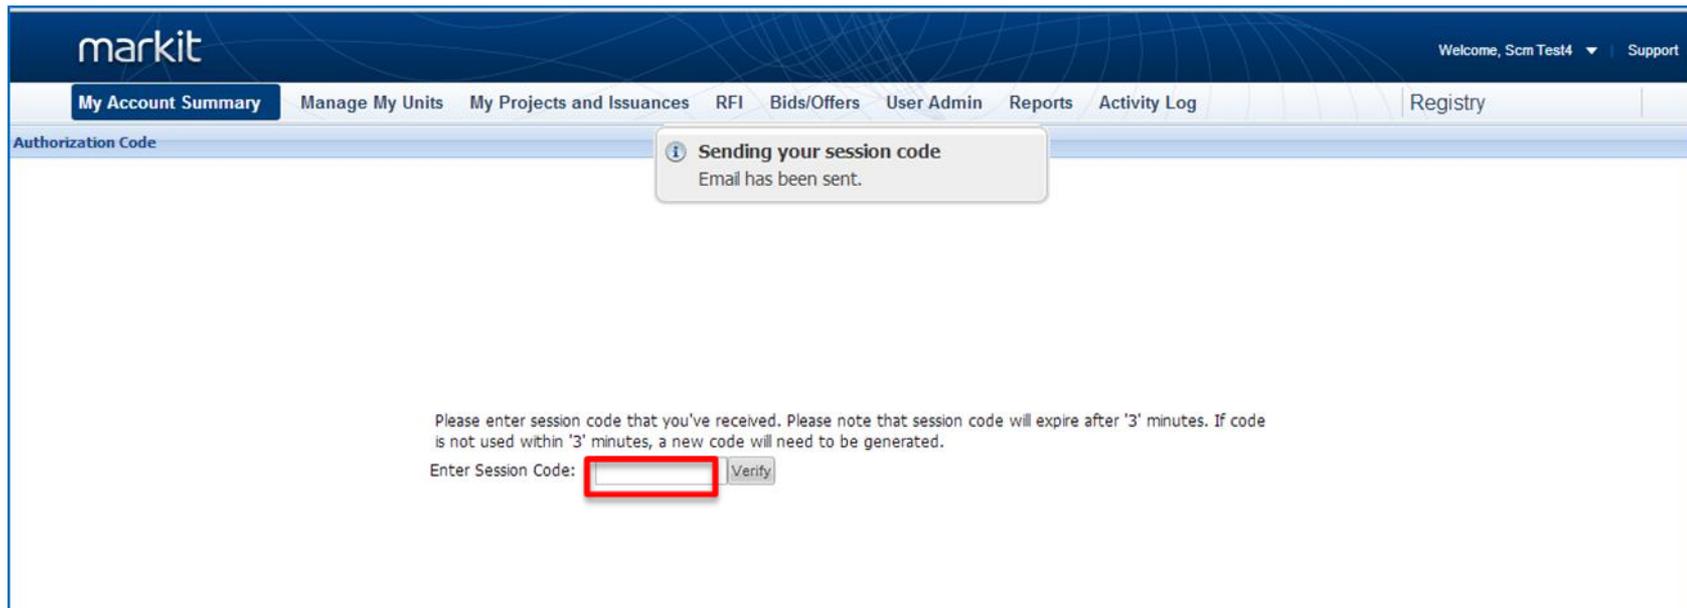

5. For security purposes, you will be prompted to enter a unique session code by clicking 'Generate Session Code'

The screenshot shows the Markit Registry user interface. At the top, the 'markit' logo is on the left, and 'Welcome, Scm Test4' with a dropdown arrow and 'Support' link are on the right. Below the header is a navigation bar with buttons for 'My Account Summary', 'Manage My Units', 'My Projects and Issuances', 'RFI', 'Bids/Offers', 'User Admin', 'Reports', 'Activity Log', and 'Registry'. Underneath the navigation bar is a section titled 'Authorization Code'. The main content area displays a message: 'Your session has either expired or not been set. Please press 'Generate Session code' button in order to access your account.' Below this message is a button labeled 'Generate Session Code', which is highlighted with a red rectangular box.

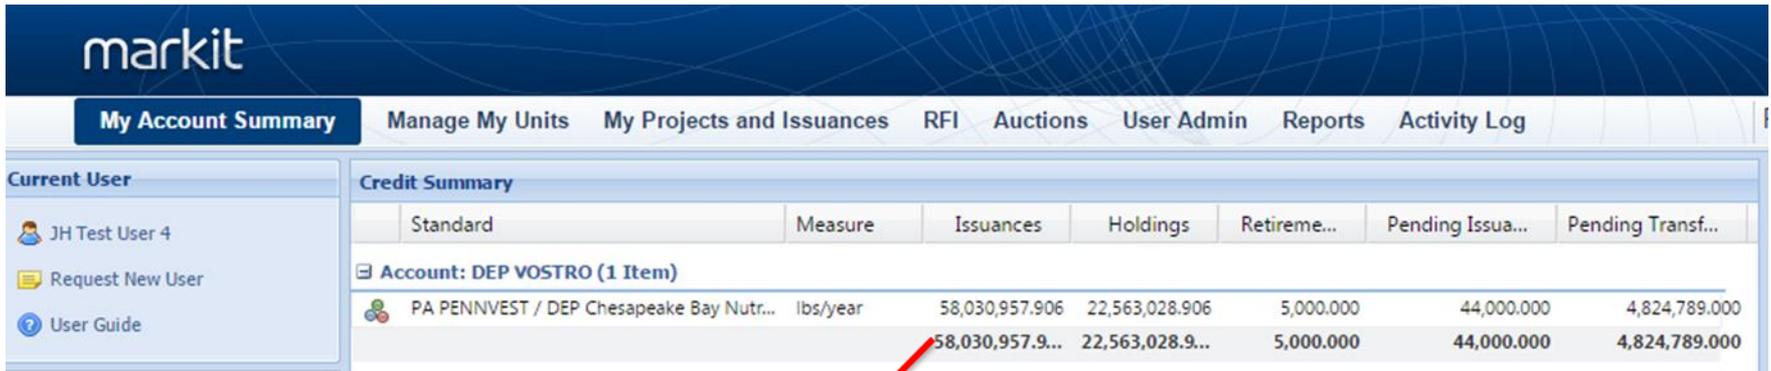

Logging into Markit Registry

6. You will be emailed a session code that you will then enter in the "Enter Session Code" field on the landing page; then click the "Verify" button

Logging into Markit Registry

7. Once you are successfully logged into Markit, you will be presented with the Markit Registry landing screen.

The screenshot shows the Markit Registry landing screen. The top navigation bar includes 'My Account Summary', 'Manage My Units', 'My Projects and Issuances', 'RFI', 'Auctions', 'User Admin', 'Reports', and 'Activity Log'. The 'Current User' sidebar lists 'JH Test User 4', 'Request New User', and 'User Guide'. The main content area displays a 'Credit Summary' table for the account 'DEP VOSTRO (1 Item)'. The table has columns for Standard, Measure, Issuances, Holdings, Retirement, Pending Issuance, and Pending Transfer. A red arrow points to the 'Issuances' column value '58,030,957.9...' in the first data row.

Standard	Measure	Issuances	Holdings	Retireme...	Pending Issua...	Pending Transf...
Account: DEP VOSTRO (1 Item)						
PA PENNVEST / DEP Chesapeake Bay Nutr...	lbs/year	58,030,957.906	22,563,028.906	5,000.000	44,000.000	4,824,789.000
		58,030,957.9...	22,563,028.9...	5,000.000	44,000.000	4,824,789.000

Note: Only Sellers will have populated fields in the credit summary field

Sellers accept credit transfers into their registry accounts

Sellers accept credit transfers into their registry accounts

1. Sellers' credits will be staged in Markit Registry approx. 2 to 3 days prior to the auction
2. Amount of credits that will be posted into seller's registry account will equal the amount that was confirmed by DEP and approved by PENNVEST in accordance with the enrollment eligibility letter
3. Once credits are posted, they will be transferred into Seller's registry account
4. Seller will receive an email notification of the incoming transfer. See sample email

Transfer Pending Notification

Dear JH Test User 4,

Thank you for your request to Transfer credits on the Markit Environmental Registry.

10. A confirmation submit bid form will display
11. Confirm details and click "Yes" button. The bid is now submitted

The image shows a screenshot of a software interface for submitting an auction bid. The main window is titled "Auction Bid" and contains several dropdown menus and input fields. A smaller dialog box titled "Submit Bid" is overlaid on top, displaying the details of the bid being submitted. The dialog box includes a question mark icon and the text "You are about to submit a Bid with the following details." followed by a list of bid details. At the bottom of the dialog box, there are two buttons: "Yes" and "No". The "Yes" button is highlighted with a red box. Below the dialog box, there are "Ok" and "Cancel" buttons.

Buyers update bids on Markit Registry

Buyers update bids on Markit Registry

1. Please note that **Buyers are able to change their bids, while auction window is open (September 6th : Round 1 from 9am – 11am; Round 2 from 2pm - 3pm)**
2. In order to change your bid, you must first “un-list” it from the auction and then create a new one
3. To un-list a bid, navigate to the “Auctions’ menu
4. Identify the bid that you wish to un-list and click on the “Un-list” box on the sub-menu bar

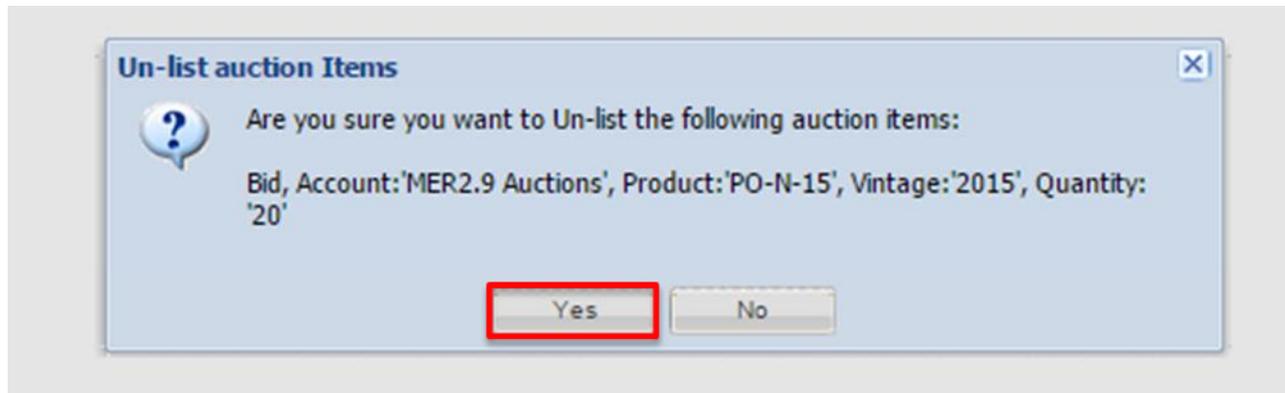

The screenshot shows the Markit Auctions interface. At the top, the 'markit' logo is on the left, and 'Welcome' is on the right. Below the logo is a navigation bar with several tabs: 'My Account Summary', 'Manage My Units', 'My Projects and Issuances', 'RFI', 'Auctions' (highlighted with a red box), 'User Admin', 'Reports', 'Activity Log', and 'Registry'. Below the navigation bar is a sub-menu bar with 'Un-list' (highlighted with a red box), 'Export to Excel', and 'Export to PDF'. To the right of the sub-menu bar are dropdown menus for 'JH Test_May 28' and '1st Round'. Below the sub-menu bar is a table with the following columns: ID, Status, Account Name, Listed Date, Product Name, Vintage, Bid or Offer, Partial or All or None, Auctioned Quantity, Auctioned Price, Final Quantity, Final Price, and Pre-qualified purchase amount limit. The first row of the table is highlighted with a red box and contains the following data: ID: 100000000012021, Status: Auction Listed, Account Name: MER2.9 Auctions, Listed Date: 28 May 2015 08:51:51 PM, Product Name: PO-N-15, Vintage: 2015, Bid or Offer: Bid, Partial or All or None: Partial, Auctioned Quantity: 20, Auctioned Price: 1.00, Final Quantity: 20, Final Price: 1.00, Pre-qualified purchase amount limit: 50,000.00.

									Amount Owed By Pennvest= Amount + Total Fee

Settlement Process

Settlement Process

Definition: Auction Settlement Price

The PENNVEST Nutrient Credit Clearinghouse Rulebook (Version 8, p.43) defines the settlement price to be:

- The **weighted average**, rounded to the nearest whole cent, between the **lowest bid** and **highest offer prices** that either **cross or touch** in the auction that are successful, with weights of these two last match prices equal to the corresponding bid and offer quantities of the last successful bids and offers.
- When the dollar limit for a bidder or offeror is exceeded, the number of credits won for that particular buyer or seller will be reduced and the auction methodology will be re-run taking into account the new set of credits won to calculate the new final price.
- The auction methodology will not be re-run unless the new auction settlement price causes another account to exceed its respective dollar limit.

Settlement Process

Determining winners and tie-breaking

1. The auction platform will determine the maximum possible cumulative traded quantity for the submitted bids and offers. This is done to ensure that the final auction fill is maximized. The following underlying restriction applies:
 - The bids and offers picked should either cross or touch (which means that bid is more than or equal to the offer).

Settlement Process

Determining winners and tie-breaking

2. Once the maximum possible traded quantity has been determined (using the largest matching sets of bids and offers and the crossed market logic), it is required to determine the fills of the actual bids and offers.
 - In case where there are multiple combinations of bids (or offers) possible that will result in a maximum fill in the auction and not all of them can be used to match the corresponding offers (or bids), priorities are assigned to break ties using the following criteria:
 - Price (higher priced bid or lower priced offer gets higher priority),
 - Size (Higher quantity gets higher priority)
 - Type (all-or-none receives higher priority than partial bids/offers),
 - Time of submission (earlier submissions get higher priority).
 - These bids and offers will then be matched starting with the higher priority submissions to determine fills.

Settlement Examples

Settlement Examples

Auctions settlement price examples

Example 1:

Buyers	Bid Type	Bid price	Credit Quantity Sought	Quantity Purchased
Bid 1	Partial	\$4.00	3000	3,000
Bid-2	Partial	\$2.00	4,000	0
Bid 3	Partial	\$3.75	2,500	1,000
Bid-4	Partial	\$1.00	1,500	0

Sellers	Offer Type	Offer Price	Credit Quantity Offered	Quantity Sold
Offer 1	Partial	\$2.75	4,000	3,000
Offer-2	Partial	\$4.25	2,000	0
Offer 3	Partial	\$2.50	1,000	1,000

Step#1: Determine the maximum quantities that cross or touch (which means that a Bid is more than or equal to the Offer). The Bids/Offeres that cross or touch are highlighted in green.

Settlement Examples

Auctions settlement price examples

- **Step#2:** Using the Bids/Offers that cross or touch, determine the actual fill of the Bids and Offers using the priority criteria established in the rulebook for multiple combinations of Bids (or Offers).
 - **Price** (higher priced bid or lower priced offer gets higher priority),
 - **Size** (higher quantity gets higher priority)
 - **Type** (all-or-none receives higher priority than partial bids/offers),
 - **Time** of Submission (earlier submissions get higher priority).
- In this example, Bid 1 gets filled initially by Offer 3 (1,000) with the remaining demand coming from Offer 1 (2,000). Bid 3 can only be partially filled with the remaining 1,000 credits of Offer 1.
 - **Step#3:** Auction clearing price is the weighted average, rounded to the nearest whole cent, between the lowest bid and highest offer prices that either cross or touch in the auction **that are successful**, with weights of these two last match prices equal to the corresponding bid and offer quantities of the last successful bids and offers.

Settlement: $(\$3.75 \times 1,000 + \$2.75 \times 4,000) / 1,000 + 4,000 = \2.95

Lowest bid price

Lowest bid quantity

Highest offer price

Highest offer price quantity

Clearing Price = \$2.95 per credit

Settlement Examples

Auctions settlement price examples

Example 2:

Buyers	Bid Type	Bid price	Credit Quantity Sought	Quantity Bought
Bid 1	Partial	\$8.00	1,800	1,800
Bid 2	Partial	\$2.50	2,000	0
Bid 3	Partial	\$3.75	500	0

Sellers	Offer Type	Offer Price	Credit Quantity Offered	Quantity Sold
Offer 1	Partial	\$5.00	4,000	0
Offer 2	Partial	\$4.00	2,000	1,800

Step#1: Determine the maximum quantities that cross or touch (which means that a Bid is more than or equal to the Offer). The Bids/Offeres that cross or touch are highlighted in green.

Settlement Examples

- **Step#2:** Using the Bids/Offers that cross or touch, determine the actual fill of the Bids and Offers using the priority criteria established in the rulebook for multiple combinations of Bids (or Offers).
- **Price** (higher priced bid or lower priced offer gets higher priority),
- **Size** (higher quantity gets higher priority)
- **Type** (all-or-none receives higher priority than partial bids/offers),
- **Time** of Submission (earlier submissions get higher priority).
- In this example, Bid 1 gets filled by Offer 2. Because Offer 2 is able to completely fill the quantity for Bid 1, Offer 1 does not get to transact any credits even though its offer price crossed/touched and the offer price is lower than the clearing price as seen in Step#3 below.
- **Step#3:** Auction clearing price is the weighted average, rounded to the nearest whole cent, between the lowest bid and highest offer prices that either cross or touch in the auction **that are successful**, with weights of these two last match prices equal to the corresponding bid and offer quantities of the last successful bids and offers.

$$\text{Settlement: } (\$8.00 \times 1,800 + \$4.00 \times 1,800) / 1,800 + 1,800 = \$6.00$$

Lowest bid price Lowest bid quantity Highest offer price Highest offer price quantity

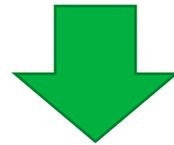

Clearing Price = \$6.00 per credit

Markit transfers MATCHED certified credits into PENNVEST Settlement Account on Markit Environmental Registry

According to each Seller's delivery schedule:

- Certified credits become verified.
- DEP will provide registration numbers and PENNVEST will deliver in accordance with the Sales/Purchase agreements

Frequently Asked Questions

Frequently Asked Questions

Q: How much should I offer my credits for?

A: While PENNVEST and Markit are unable to consult on pricing your credits, results from previous auctions are available on Markit's website:

<http://www.markit.com/Product/Pennvest>

Q: What is the difference between listing my credits as "ALL/NONE" or "PARTIAL"?

A: The way you list your credits will determine how they are matched. Credits that are listed as "ALL/NONE" will only be sold or purchased if the entire quantity can be sold or purchased, while credits that are listed as "PARTIAL" will be matched up to the amount that is available.

Q: How is it that my offer price was lower than the final settlement price but I wasn't successful?

A: The final settlement price is the weighted average between the lowest bid and the highest offer. Therefore, it's possible your offer, while being below the settlement price, doesn't fit within the range calculated for the quantities matched based on bids submitted.
