

Insights for Chemical Engineering Professionals

Your Catalyst for Confident Decisions

As an Engineering Professional, your company relies on you for innovations and investment decisions

Your decisions impact a \$750 billion market.

You need credible, accurate information to ensure that new developments are competitively positioned and meet the demands of the changing marketplace – while maintaining the highest safety standards. But ever-changing technical and commercial developments in the global chemical industry can challenge your ability to accurately assess your current competitive position and determine the viability of new investments.

With so much riding on your decisions, you need more than data – you need insights that are:

ACTIONABLE

enable you to act quickly and decisively

COMPREHENSIVE

reveal potential regulatory issues, emerging technology and process innovations

TRUSTED

instill greater confidence in decision making

You can rely on IHS Markit.

IHS Markit's Chemical is your catalyst for growth. We offer actionable insights, workflow tools, market forecasts and credible analytics that enable you to:

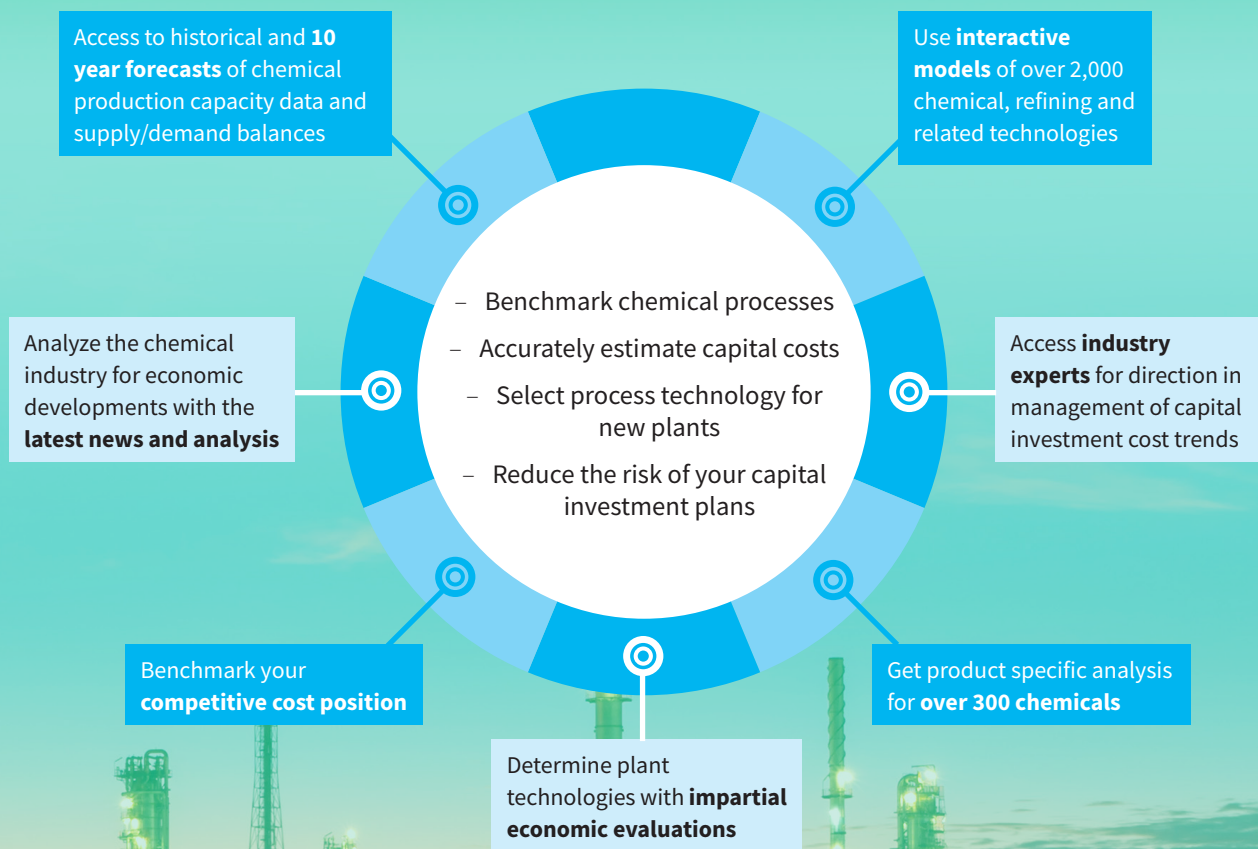

IHS Markit empowers engineering directors to confidently identify and capitalize on investment opportunities, new technologies, and process improvements. Our team of experts can help you develop simulations, benchmark plant operations, and evaluate new technologies in order to optimize capital and operating expenditures. Armed with our expertise, you can make informed choices about project opportunities while navigating the competitive landscape to maximize long-term growth.

Our depth of expertise, experience and knowledge is unparalleled.

“Today, we are ready to move ahead with plans to launch a chemical manufacturing business... Our shareholders can feel confident knowing that the company’s leadership team has the world-class insights it needs from IHS Markit.”

— CHEMICAL ENGINEERING MANAGER

How IHS Markit can help:

Depend on IHS Markit for the most trusted intelligence, tools and experts.

More than data, IHS Markit offers the industry's most unique, distinguished and comprehensive portfolio. Short- or long-term, worldwide or region-specific, we elevate your plans with actionable insights from the most trusted analysts and sources.

Process Economics Program (PEP): Analyses technical & economic evaluation of 2,000+ commercial & emerging technologies for 600+ chemicals

Competitive Cost & Margin Analytics (CCMA): Includes production costs & margins by plant & feedstock for major chemicals, covering ten-year history and forecast

Specialty Chemical Update Program (SCUP): Provides detailed, strategic analysis of 38 specialty chemical businesses, including market drivers, players, structure and dynamics

Chemical Consulting: Specialists who draw on 60+ years of corporate strategy development, portfolio optimization & capital investment planning

Chemical Economics Handbook (CEH): Offers five-year outlooks and extensive data on 300+ industrial chemicals

Chemical Week: Covers latest news and analysis of chemical industry, corporate, and economic developments

Count on IHS Markit for answers.

In today's sea of information, reliable, accurate data is crucial to making the best choices — every time. IHS Markit knows the rigor that goes into decisions of great importance with solutions that meet the needs of our customers.
