

Technology Intelligence Service

PV Inverter

Comprehensive data and analysis on the global PV inverter market

Identify and maximize near and long-term opportunities across the industry with unrivalled market data and insights.

BENEFITS:

- Identify the leading inverter suppliers via in-depth market share tables
- Track the latest price movements and key markets for inverters
- Understand the latest inverter technology trends such as power rating and voltage shifts, higher power rating trends and the growing MLPE market

Data

Market trackers and databases, delivered in Excel Tables including revenues, units, ASPs, market shares and products.

Data Visualization

Uncover and understand actionable insights through our unique and flexible data visualization tool.

Reports

Regular reports addressing key focus areas and hot topics.

Analyst Access

For prompt responses to urgent and unique questions.

The PV Inverter Intelligence Service provides comprehensive research on the global PV inverter market in one single subscription package, delivering detailed and accurate data and insights into the market for traditional inverters, as well as microinverters and power optimizers.

Core market trackers provide comprehensive analysis of supply and demand dynamics for the global PV inverter market with topical reports and analyst insights adding detailed analysis on hot topics and major market shifts.

The service relies upon intensive primary data collected from all of the leading suppliers of PV inverters in order to build highly accurate and granular market data.

Research Coverage

IHS Markit Technology Intelligence Service clients are supported by a continuous follow of research, presented in formats designed to make our insights, analysis, and advice succinct and easily accessible.

Data

PV Inverter Market Tracker

Quarterly updates providing detailed tracking and forecasting of PV inverter shipments, revenues and pricing, including annual and quarterly data, with segmentation by power rating, voltage, type, isolation and sales channels. Trackers also includes over 50 detailed supplier market share tables by world, region and country

PV Installations Tracker

Quarterly updates providing detailed tracking and forecasting of installations in all key PV markets, including annual and quarterly data, with segmentation by installation and system type.

Analysis

Topical reports are published regularly, providing a deep-dive into hot topics and key market segments. Recently published reports include:

PV Market Trend Survey - China

This monthly check on the Chinese PV market relies upon real shipment and installation data collected from suppliers and installers in the world's largest PV market. The survey provides customers with a regularly updated and accurate check on its short- and medium-term development.

PV Microinverters and Power Optimizers Report - 2017

Annual report identifying opportunities in the high-growth market of module level power electronics (MLPE) and giving insight into key suppliers, market drivers, regulatory environment and detailed forecasts in over 20 markets for both microinverters and power optimizers.

PV Inverter report - India 2018

This report provides in-depth analysis of the large and high-growth Indian PV inverter market including detailed forecast analysis, policy overview and inverter capacity and partnership announcements.

PV Inverter Supplier Scorecard - 2018

Addresses the market need for vendor evaluation based on objective data and metrics. The IHS Markit methodology produces scores that tell a nuanced story of the vendor landscape, based on actual data and metrics, each supplier is awarded a score for its market presence and market momentum.
